To Township Commissioners Township of Hopewell

### Independent Auditor's Report

#### **Report on Financial Statements**

I have audited the accompanying basic financial statements of the governmental activities, business-type activities, each major fund, and the aggregate remaining fund information of the Township of Hopewell as of and for the year ended December 31, 2019, and the related notes to the financial statements, which collectively comprise the Township's basic financial statements as listed in the table of contents.

#### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### Auditor's Responsibility

My responsibility is to express opinions on these financial statements based on my audit. I conducted my audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Township's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Township's internal control. Accordingly, I express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall financial statement presentation.

I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my audit opinions.

#### Opinions

In my opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Township of Hopewell, Beaver County, Pennsylvania as of December 31, 2019 and the respective changes in financial position and, where applicable, cash flows thereof and the respective budgetary comparison for the General Fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### **Other Matters**

#### Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages iii-xv and defined benefit trust funds' historical pension information on pages 63-68 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. I have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information for consistency with management's responses to my inquiries, the basic financial statements, and other knowledge I obtained during my audit of the basic financial statements. I do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

#### Other Information

My audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Township of Hopewell's basic financial statements. The supplementary information (Schedules 1 through 5) is presented for purposes of additional analysis and is not a required part of the basic financial statements.

The supplementary information is the responsibility of management and was derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In my opinion, the supplementary information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

#### INTRODUCTION

This discussion and analysis of the Township of Hopewell's financial performance provides an overall review of the Township's financial activities for the year ended December 31, 2019. The intent of Management's Discussion and Analysis (MD&A) is to provide readers with an appreciation for the financial status of the Township, the challenges faced and accomplishments achieved. The reader should also review the basic financial statements and notes to the basic financial statements to enhance their understanding of the Township's financial performance.

The Management Discussion and Analysis (MD&A) is an element of the reporting model adopted by the Governmental Accounting Standards Board (GASB) in their Statement No. 34 Basic Financial Statements and Management's Discussion and Analysis for State and Local Governments. Certain comparative information between the current year and the prior year is required to be presented in the MD& A.

#### FINANCIAL HIGHLIGHTS

Key financial highlights for 2019 are as follows:

- The Township's governmental activities net position increased \$2,036,777 in 2019, or 22% which increased total net position at December 31, 2019 to \$11,452,815.
- Unrestricted governmental activities net position was \$4,851,637 at December 31, 2019. Unrestricted business-type activities net position was \$426,333 at December 31, 2019.
- General Fund unassigned fund balance at December 31, 2019 was \$2,039,996
- The Township has adopted the provisions of Governmental Accounting Standards Board (GASB) Statement No. 68 – 'Accounting and Financial Reporting for Pensions". The Township is required to recognize an actuarially determined net pension liability on their Statement of Net Position, along with deferred outflows and inflows related to the Township's employee pension plans. As of December 31, 2019, the net pension liability for the pension plans (police and non-uniformed) was a combined net of \$1,391,899 (recognized in both the governmental activities and business-type activities).

#### USING THE ANNUAL FINANCIAL REPORT (GASB 34)

The Annual Financial Report consists of the Management Discussion and Analysis (this section) and a series of financial statements and notes to those statements. These statements are organized so that the reader can understand the Township of Hopewell as an entire operating entity. The statements then proceed to provide an increasingly detailed look at specific financial activities.

The first two statements are government-wide financial statements – the Statement of Net Position and the Statement of Activities. These provide both long-term and short-term information about the Township's overall financial status.

The remaining statements are fund financial statements that focus on individual parts of the Township's operations in more detail than the government-wide statements. The governmental funds statements tell how general Township services were financed in the short term as well as what remains for future spending. The Proprietary fund statements provide information on the Sewer Fund. Fiduciary fund statements provide information about financial relationships where the Township acts solely as a trustee or agent for the benefit of others, to whom the resources in question belong. Fiduciary fund statements provide information about financial relationships where the Townships where the Township acts solely as a trustee or agent for the benefit of others, to whom the resources in question belong. Fiduciary fund statements provide information about financial relationships where the Township acts solely as a trustee or agent for the benefit of others, to whom the resources in question belong. Fiduciary fund statements provide information about financial relationships where the Township acts solely as a trustee or agent for the benefit of others, to whom the resources in question belong. Fiduciary fund statements provide information about financial relationships where the Township acts solely as a trustee or agent for the benefit of others, to whom the resources in question belong. The Police Pension Fund is the only fiduciary fund of the Township.

The financial statements also include notes that explain some of the information in the financial statements and provide more detailed data.

#### USING THE ANNUAL FINANCIAL REPORT (GASB 34) (Continued)

Figure A-1 shows how the required parts of the Financial Section are arranged and relate to one another:

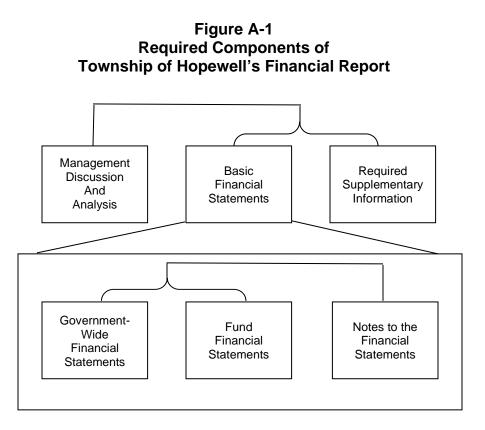

Figure A-2 summarizes the major features of the Township's financial statements, including the portion of the Township they cover and the types of information they contain. The remainder of this overview section of management discussion and analysis explains the structure and contents of each of the statements.

#### **OVERVIEW OF FINANCIAL STATEMENTS**

#### **GOVERNMENT-WIDE STATEMENTS**

The government-wide statements report information about the Township as a whole using accounting methods similar to those used by private-sector companies. The statement of net position includes all of the government's assets and liabilities. All of the current year's revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

The two government-wide statements report the Township's net position and how they have changed. Net position, the difference between the Township's assets and liabilities, are one way to measure the Township's financial health or position. Over time, increases or decreases in the Township's net position are an indication of whether its financial health is improving or deteriorating, respectively. To assess the overall health of the Township's property tax base and the condition of the Township's infrastructure (roads and sewers).

The government-wide financial statements of the Township consist of the following categories:

- Governmental activities All of the Township's basic services are included here, such as general administration, public safety and public works. Property and Act 511 taxes and state grants finance most of these activities.
- Business-type activities The Township operates two sewer treatment plants.

#### FUND FINANCIAL STATEMENTS

The Township's fund financial statements, which begin on Page 3, provide detailed information about the most significant funds – not the Township as a whole.

#### **OVERVIEW OF FINANCIAL STATEMENTS** (Continued)

#### FUND FINANCIAL STATEMENTS (Continued)

**Governmental Funds** – Most of the Township's activities are reported in governmental funds, which focus on the determination of financial position and change in financial position, not on income determination. They are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the Township's operations and the services it provides. Governmental fund information helps the reader determine whether there are more or fewer financial resources that can be spent in the near future to finance the Township's programs. The relationship (or differences) between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds is reconciled in the financial statements.

**Enterprise Funds** – The Township operates a sewer fund.

**Fiduciary Funds** – The Township is the trustee, or fiduciary, for the police pension and non-uniformed employee pension funds. All of the Township's fiduciary activities are reported in separate Statements of Fiduciary Net Position and Changes in Fiduciary Net Position on Pages 11 and 12. We exclude these activities from the Township's other financial statements because the Township cannot use these assets to finance its operations.

#### FINANCIAL ANALYSIS OF THE TOWNSHIP AS A WHOLE

The Township has presented its financial statements using the reporting model required by Government Accounting Standards Board Statement No. 34 (GASB Statement #34), "Basic Financial Statements and Management's Discussion and Analysis (MD&A) for State and Local Governments.

#### FINANCIAL ANALYSIS OF THE TOWNSHIP AS A WHOLE (Continued)

The Township's net position on December 31, 2019 vs. December 31, 2018 is presented below:

The results of this year's operations as a whole are reported in the Statement of Activities on Page 2. All expenses are reported in the first column. Specific charges, grants, revenues and subsidies that directly relate to specific expense categories are represented to determine the final amount of the Township's activities that are supported by other general revenues. The largest general revenues are local taxes assessed to and derived from community taxpayers.

#### FINANCIAL ANALYSIS OF THE TOWNSHIP AS A WHOLE (Continued)

Table A-2 takes the information from the Statement of Activities, rearranges it slightly, so you can see our total revenues, expenses, and change to the net position for 2019.

#### **GENERAL FUND BUDGET**

In December of 2018, the Township of Hopewell adopted its annual budget for the General Fund in the amount of \$7,173,510. A schedule showing the Township's original and final budget amounts compared with amounts actually paid and received is provided on Page 7.

#### **PROGRAM REVENUES**

The following chart graphically depicts the government-wide program and general revenues for the fiscal year ended December 31, 2019.

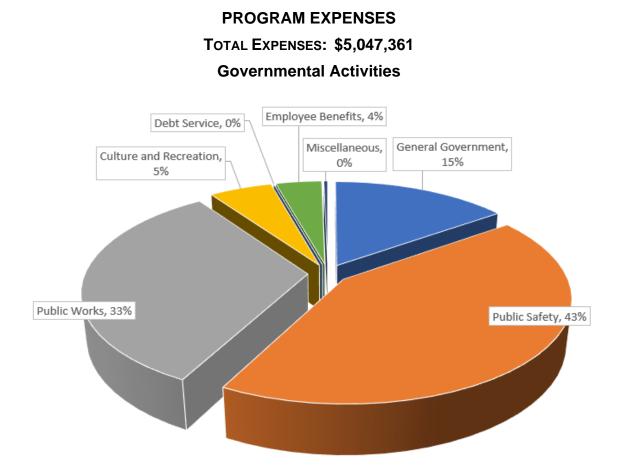

## SOURCE OF REVENUES TOTAL REVENUES: \$7,084,138 GOVERNMENTAL ACTIVITIES

#### **PROGRAM EXPENSES**

Total expenses for all programs in 2019 were \$9,243,882. The expenses reflect the delivery of a wide range of services, with the two largest areas being Public Safety at 30.3% and Miscellaneous at 26.6%. Public Works expenses were at 19.9%, Culture and Recreation expenses were at 7.8%, and General Government expenses were at 8.8%.

The following chart graphically depicts the government-wide program expenses for the fiscal year ended December 31, 2019.

#### xiv

#### CAPITAL ASSET AND DEBT ADMINISTRATION

#### Capital Assets

At December 31, 2019, the Township had \$16,896,190 invested in capital assets, including land, infrastructure, buildings, machinery and equipment and vehicles net of depreciation. This amount represents a net increase (including additions, deletions and depreciation) of \$448,059 or approximately 2.8% from last year. The Township had approximately \$1,298,387 in capital additions during the 2019 year, most of which was related to building improvements and equipment purchases.

#### Long Term Debt

On December 31, 2019, the Township had \$6,328,211 of debt outstanding. The Township will make \$841,409 in debt service principal payments during 2020.

#### Pension Trust Fund

The Township of Hopewell has two pension plans – a PMRS plan for general employees that is separately administrated, and a police pension plan that is administrated by the Township. On December 31, 2019, the net position of the police plans was \$9,214,754.

#### **CONTACTING THE TOWNSHIP**

This financial report is designed to provide our residents, taxpayers, customers, investors and creditors with a general overview of the Township's finances and to demonstrate the Township's accountability for the money it receives. If you have any questions about this report or need additional financial information, please contact:

5

#### <u>EXHIBIT F</u>

#### TOWNSHIP OF HOPEWELL RECONCILATION OF THE GOVERNMENT FUNDS STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES TO THE STATEMENT OF ACTIVITIES FOR THE YEAR ENDED DECEMBER 31, 2019

TOTAL NET CHANGE IN FUND BALANCES - GOVERNMENTAL FUNDS	\$ 702,760
Amounts reported for governmental activities in the statement of activities are different because:	
Capital outlays are reported in governmental funds as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capital outlays (\$417,047) exceeds depreciation expense (\$401,132) in the period	15,915
Proceeds from the sale of fixed assets are recognized as revenues in the governmental funds. The remaining book value of assets disposed during the fiscal year is recognized as a loss in the statement of activities.	(6,188)
Governmental funds report pension contributions as expenditures. However, in the statement of activities, the cost of pension benefits earned net of employee contributions is reported as pension expense.	92,689
Repayment of debt principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net assets	427,357
Bond premiums are reported in governmental funds as revenues. However, in the statement of activities, this amount is capitalized and is accreted over the life of the bond issue as interest expense.	6,341
The changes in the net pension liability and related deferred outflows and inflows of resources does not affect current financial resources and therefore, not relfected in the fund statements	788,547
Because certain property and wage taxes will not be collected for several months after the City's year ends, they are not considered as "available" revenues in the governmental funds.	(3,487)
In the statement of activities, certain operating expenses - compensated absences and retiree benefits - are measured by the amounts earned during the year. In the governmental funds, however, expenditures for these items are measured by the amount of financial resources used (paid). This is the amount	
by which compensated absences paid exceeded the amount earned in 2019.	 12,843
CHANGE IN NET POSITION OF GOVERNMENTAL ACTIVITIES	\$ 2,036,777

#### **NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

#### **REPORTING ENTITY**

The Township of Hopewell is a First-Class Township that was incorporated under the provisions governing the creation of municipal corporations in the Commonwealth of Pennsylvania. The administration of the Township consists of a five-member board of Commissioners and a Township Manager. Members of the Board of Commissioners are elected by the voting public. The Commissioners appoint a Township Manager to administer the day-to-day operations of the Township. The major functions of the Township include public safety, sanitation, maintenance of Township infrastructure (roads), maintenance of parks and other recreational programs, activities and facilities for use by Township residents, and general administrative functions necessary to facilitate Township responsibilities and resident needs.

A reporting entity is comprised of the primary government, component units and other organizations that are included to ensure the financial statements are not misleading. The primary government of The Township of Hopewell consists of all funds, departments, boards and agencies that are not legally separate from the Township. Generally accepted accounting principles defines component units as legally separate entities that are included in the Township's reporting entity because of the significance of their operating or financial relationships with the Township. Based on the application of the above criteria, the Township of Hopewell has no component units.

#### FINANCIAL STATEMENT PRESENTATION

**GOVERNMENT-WIDE FINANCIAL STATEMENTS** – The statement of net position (Exhibit A) and the statement of activities (Exhibit B) display information about the Township as a whole. These statements combine all the financial activities of the primary government (Township of Hopewell), except for fiduciary funds. As a general rule, the effect of inter-fund activity has been removed from these statements. Governmental activities, which normally are supported by taxes, intergovernmental revenues and other nonexchange transactions, are reported separately from business-type activities, which rely to a significant extent on fees and charges for services. The statements distinguish between those activities of the Township that are governmental and those that are considered business-type activities.

The government-wide statements are prepared using the economic resources measurement focus. This approach differs from the manner in which governmental fund financial statements are prepared. Governmental fund financial statements therefore include reconciliations (Exhibits D and F) with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

The government-wide statement of activities presents a comparison between direct expenses and program revenues for each function of the Township's governmental activities and component unit. Direct expenses are those that are specifically associated with a service, program or department and are therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program, and grants, subsidies and contributions that are restricted to meeting the operational or capital requirements of a particular program.

#### NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

**FUND FINANCIAL STATEMENTS** – Fund financial statements report detailed information about the Township. The focus of governmental fund financial statements is on major funds rather than reporting funds by type. Major funds represent the Township's most important funds and are determined based on percentages of assets, liabilities, revenues and expenditures. The General Fund always considered a major fund. Major funds are presented in a separate column and non-major governmental funds are segregated and combined in a single column. Fiduciary funds are reported separately.

#### BASIS OF ACCOUNTING AND MEASUREMENT FOCUS

The financial statements of Hopewell Township are prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is responsible for establishing GAAP for state and local governments through its procurements (Statement and Interpretations).

The basis of accounting determines when transactions are recorded in the financial records and reported in the financial statements. Government-wide financial statements (Exhibits A and B) are prepared using the accrual basis of accounting in conformity with generally accepted accounting principles in the United States of America (GAAP) established by the Governmental Accounting Standards Board (GASB). Governmental funds (Exhibits C, E, and G) use the modified accrual basis of accounting. Proprietary funds (Exhibit H, I and J) and Fiduciary funds (Exhibits K and L) use the accrual basis of accounting.

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. All governmental fund types are accounted for using a flow of current financial resources measurement focus. The financial statements for governmental funds are a balance sheet, which generally includes only current assets and current liabilities, and a statement of revenues, expenditures and changes in fund balances, which reports on the sources (revenues and other financing sources) and uses (expenditures and other financing uses) of current financial resources. Fiduciary funds are reported using the economic resources measurement focus.

Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the Township, available means expected to be received within sixty days of fiscal year-end.

Revenue resulting from non-exchange transactions, in which the Township receives value without directly giving equal value in return, includes property taxes, grants and contributions. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenues from grants and contributions are recognized in the fiscal year in which all eligibility requirements have been satisfied. On a modified accrual basis, revenue from non-exchange transactions must also be 'available' before it can be recognized.

#### NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### BASIS OF ACCOUNTING AND MEASUREMENT FOCUS (Continued)

The management of the Township of Hopewell has determined that the revenues most susceptible to accrual at December 31, 2019 are 1) real estate taxes collected within 60 days of Township's calendar yearend, 2) delinquent real estate taxes for the month of December, 3) certain Act 511 taxes, 4) cable franchise fees for the fourth quarter of 2019 and 5) other miscellaneous items of income pertaining to the 2019 calendar year received subsequent to December 31, 2019. On the governmental fund financial statements, receivables that will not be collected within the 'available' period have been reported as 'deferred inflows of resources'.

On the accrual basis of accounting, expenses are recognized at the time they are incurred. The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. The primary expenditures deemed susceptible to accrual at December 31, 2019 are those for which the Board of Commissioner's intention was to expense these items as budgeted for in the 2019 official budget, and for which the Township has incurred an obligation during 2019 but has not paid as of December 31, 2019.

Allocations of cost, such as depreciation, are not recognized in governmental funds but are included as part of expenses in the government-wide statement of activities.

Program revenues include charges paid by the recipient of the goods or services offered by the program, and grants, subsidies and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues which are not classified as program revenues are presented as general revenues of the Township. The comparison of direct expenses with program revenues identifies the extent to which the government function is self-financing or draws from the general revenues of the Township.

#### FUND ACCOUNTING

Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related ot certain Township functions or activities. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. Funds are classified into three categories: Governmental, proprietary, and fiduciary. Fund categories are defined as follows:

**Governmental Funds** – Governmental funds focus on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and liabilities is reported as fund balance. The following are the Township's major and non-major governmental funds:

#### MAJOR GOVERNMENTAL FUNDS:

**<u>GENERAL FUND</u>** - Established under 'The First-Class Township Code' of the Commonwealth of Pennsylvania and is used for the general operations of the Township. Income in this fund is derived mainly from assessed revenue such as real estate taxes, local taxes established under Act 511 and other miscellaneous revenues not designated for other restricted fund purposes. These revenues are used for general ongoing government services such as public safety, public works, general administration of the Township and other miscellaneous operating expenses.

#### NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### FUND ACCOUNTING

#### MAJOR GOVERNMENTAL FUNDS:

**<u>CAPITAL PROJECT FUND</u>** - Established to account for transfers from the General Fund and Sewer Fund to be used for the construction and improvement of the Township's parks, sewer system and other Township areas.

**<u>HIGHWAY AID FUND</u>** (SPECIAL REVENUE) - Established and restricted under Act 655 of the Commonwealth of Pennsylvania. Funding is received from the Commonwealth and is restricted in use for the maintenance, repair and construction of roads, streets and bridges for which the Township is responsible.

<u>Proprietary Funds</u> - used to account for activities similar to those found in the private sector, where the determination of net income is necessary and useful to sound financial administration. Goods or services from such activities can be provided either to outside parties (enterprise funds) or to other departments or agencies within the Township (internal service funds). The Township operates a Sewer Fund.

**Fiduciary Funds** – Fiduciary fund reporting focuses on net position and changes in net position. The fiduciary fund category is split into four classifications: pension trust funds, investment trust funds, private-purpose trust funds and agency funds. Trust funds are used to account for assets held by the Township under a trust agreement for individuals, private organizations, or other governments and are therefore not available to support the Township's own programs. Agency funds are custodial in nature and do not involve measuring income or any other results from operations. The Township has one pension trust fund (police pension).

#### **BUDGETS**

In December of 2018, the Township of Hopewell adopted its 2019 annual budget for its General Fund totaling \$6,715,276 in accordance with the provisions of the Commonwealth of Pennsylvania Township Code. The Township also adopted a budget for the capital project funds in the amount of \$303,780. The budgets are prepared utilizing the modified accrual method of accounting in accordance with generally accepted accounting principles. The original and final budgetary amounts are reflected in these financial statements (Exhibit G and Schedule 5). All annual appropriations of the general fund lapse at year-end.

The Township uses the following procedures in establishing this budgetary data:

- a. In accordance with the Township Code, beginning at least 30 days prior to the adoption of the budget, which shall not be later than December 31, a proposed budget for the ensuing year shall be prepared. The proposed budget shall be kept on file with the Township and made available for public inspection for a period of twenty days. Notice that the proposed budget is available for inspection is published in a newspaper of general circulation. After expiration of the twenty days, the Commissioners makes such revisions in the budget as deemed advisable and shall adopt the budget by motion.
- b. Transfers of budget amounts are authorized between departments within any fund after the third month of the year. However, any revisions that alter the total appropriations of any fund must be approved by the Commissioners.

#### NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### CASH AND CASH EQUIVALENTS

For purposes of these basic financial statements, cash and cash equivalents include amounts in demand deposit accounts and all highly liquid short-term investments with original maturity terms of less than three months.

#### INVESTMENTS

Provisions of Section 1705.1 of the First-Class Township Code authorize the following investments:

- I. Obligations of (a) the United States of American or any of its agencies or instrumentalities backed by the full faith and credit of the United States of America, (b) the Commonwealth of Pennsylvania or any of its agencies or instrumentalities backed by the full faith and credit of the Commonwealth of Pennsylvania, or (c) of any political subdivision of the Commonwealth of Pennsylvania or any of its agencies or instrumentalities backed by the full faith and credit of the political subdivision.
- II. Deposits in savings accounts, time deposits and share accounts of institutions insured by the Federal Deposit Insurance Corporation (FDIC) to the extent that such accounts are so insured and, for any amounts above the insured maximum, provided that approved collateral, as provided by law, is pledged by the depository.
- **III.** U.S. government obligations, short-term commercial paper issued by a public corporation, and banker's acceptances.

Governmental fund type investments include funds pooled for investment purposes with the Pennsylvania Local Government Investment Trust (PLGIT). PLGIT funds are stated at amortized cost, which approximates market value. The Township's portfolio is in compliance with these statutes at December 31, 2019. Fiduciary fund type investments include funds invested with Wells Fargo and PMRS, the Township's designated asset managers for the police and non-uniform pension plans.

#### RECEIVABLES

Receivables are reflected at net realizable value as of December 31, 2019.

#### INVENTORIES

The inventories of the Township were not material to the financial statements taken as a whole as of December 31, 2019. Therefore, they are not reported.

#### SHORT-TERM INTERFUND RECEIVABLES/PAYABLES

During the course of operations, numerous transactions occur between individual funds for goods provided or services rendered. These receivables and payables, if any, are classified as 'due from/to other funds' on the balance sheet. For the purposes of the government-wide statement of net position, governmental interfund receivables and payables have been eliminated.

# NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

# **CAPITAL ASSETS AND DEPRECIATION**

General capital assets are those assets not specifically related to activities reported in proprietary funds. These assets are reported as part of governmental activities on the government-wide statement of net position. All capital assets are recorded at cost (or estimated historical cost). Donated fixed assets are recorded at fair value at the time of receipt. The Township maintains a capitalization dollar threshold of 1) \$10,000 or more for machinery and equipment, 2) \$15,000 or more for buildings and improvements, 3) \$15,000 or more for infrastructure and land improvements, and 4) land at any amount are reported at historical cost or estimated historical cost. In addition, capital assets purchased with long-term debt may be capitalized regardless of the thresholds established. Routine repair and maintenance costs that do not add to the value of the asset or extend its useful life are charged as an expense in the government-wide statement of activities. Management has elected to include certain homogeneous asset categories with individual assets less than \$10,000 as composite groups from financial reporting purposes.

Donated capital assets are recorded at estimated fair market value at the date of donation. In accordance with GASB Statement No. 34, infrastructure has been prospectively capitalized, beginning January 1, 2004. The Township did not elect retroactive reporting of infrastructure in the year of adoption of GASB Statement No. 34.

All reported capital assets, except land, are depreciated using the straight-line method over the following useful lives:

CATEGORY	YEARS
Buildings and Improvements	10-40
Furniture, Vehicles and Equipment	3-15
Infrastructure	20-50

The accounting and reporting treatment applied to the capital assets associated with a fund are determined by its measurement focus. Capital assets purchased by governmental funds are recorded as expenditures in the fund financial statements (Exhibit E). The results of capitalizing fixed assets net of depreciation on the government-wide statement of net position and statement of activities, as opposed to recording these same assets as an expenditure in the fund financial statements (Exhibit E), is reflected in the required reconciliations of fund balance to net position (Exhibit D) and the changes in fund balances to the changes in net position (Exhibit F).

#### ACCRUED LIABILITIES AND LONG-TERM OBLIGATIONS

All payables, accrued liabilities and long-term obligations are reported in the government-wide financial statements. In general, payables and accrued liabilities that will be paid from governmental funds are reported on the governmental fund financial statements regardless of whether they will be liquidated with current resources. However, the non-current portion of long-term liabilities that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they will be paid with current, expendable, available financial resources. In general, liabilities that mature or come due for payment within 60 days of the end of the fiscal year-end, are considered to be paid with current available financial resources.

Capital leases and other long-term obligations, if any, that will be paid from governmental funds are not recognized as a liability in the fund financial statements when due. The Township's General Fund is typically used to liquidate long-term liability obligations.

## NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### ACCRUED LIABILITIES AND LONG-TERM OBLIGATIONS (Continued)

The results of recognizing these long-term obligations as liabilities on the government-wide statement of net position and statement of activities, as opposed to recording these same obligations as an expenditure in the fund financial statements (Exhibit E) only when paid, is reflected in the required reconciliations of fund balance to net position (Exhibit D) and the changes in fund balances to the changes in net position (Exhibit F).

#### LONG-TERM DEBT FINANCING COSTS

Bond and note issuance costs are recorded as expenditures in the governmental fund financial statements in the year paid. The Township did not incur bond or note issuance costs during the 2019 fiscal year.

## **OPERATING REVENUES AND EXPENSES**

Operating revenues are those revenues that are generated directly from the primary activity of the proprietary fund. For the Township of Hopewell, these revenues are water, sewer, trash and recycling usage charges, parking revenue, industrial park leases, and other miscellaneous revenues directly related to the operations of the Township. Operating expenses are the necessary costs incurred to operate the water, sewer, trash, recycling, parking, and industrial park activities. Non-operating revenues of the Township Sewer Fund consist of investment earnings and sale of fixed assets. Non-operating expenses consist of interest expense on debt obligations.

#### UNEARNED REVENUE

Unearned revenue arises when the Township receives resources before it has legal claim to them. This occurs when grant monies are received prior to the incurrence of qualifying expenditures. In subsequent periods, when both revenue recognition criteria are met, or when the Township has a legal claim to the resources, the unearned revenue liability is removed and revenue is recognized.

#### DEFERRED OUTFLOWS AND INFLOWS OF RESOURCES

In addition to assets and liabilities, the statement of net position will sometimes report a separate section for deferred outflows and/or inflows of resources. These separate financial statement elements represent a decrease and/or increase in net position that applies to a future period and will not be recognized as an outflow and/or inflow of resources (expense/expenditure or income/revenue) in the current period.

#### PENSIONS

For the purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position, and additions to/deductions from the pension plan's (the plan) fiduciary net position have been determined on the same basis as they are reported by the plans. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investment assets are reported at fair value. More information on pension activity is included in Note 9.

## NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

## NET POSITION

Net position is classified into four categories according to external donor or legal restrictions or availability of assets to satisfy Township obligations. Net position is classified as follows:

- Net Investment in Capital Assets This component of net position consists of capital assets net
  of accumulated depreciation and reduced by the outstanding balances of debt that is attributable
  to the acquisition, construction and improvement of the capital assets, plus deferred outflows of
  resources less deferred inflows of resources related to those assets.
- Restricted Net Position This component of net position consists of restricted assets reduced by liabilities and deferred inflows related to those assets. Restricted net position includes Act 655 funding from the Commonwealth of Pennsylvania restricted in use for the maintenance, repair and construction of roads, streets and bridges in the Township.
- Unrestricted Consists of net position that does not meet the definition of 'restricted' or 'net investment in capital assets'.

When an expense is incurred that can be paid using either restricted or unrestricted resources (net position), the Township's policy is to first apply the expense toward restricted resources and then toward unrestricted resources.

#### FUND BALANCE

In the Balance Sheet – Governmental Funds (Exhibit C), fund balances are reported in specific categories to make the nature and extent of the constraints placed on any entity's fund balance more transparent in accordance with GASB No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*. The following classifications describe the relative strength of the spending constraints placed on the purposes for which resources can be used:

- Non-spendable fund balance this is the balance that cannot be spent because they are not expected to be converted to cash or they are legally or contractually required to remain intact. Examples of this classification are prepaid items and inventories.
- Restricted fund balance amounts constrained to specific purposes by their providers (such as grantors, bondholders, and high levels of government), through constitutional provisions, or by enabling legislation. Restricted fund balance includes Act 655 funding from the Commonwealth of Pennsylvania restricted in use for the maintenance, repair and construction of roads, streets and bridges in the Township.
- Committed fund balance amount constrained to specific purposes by the Township itself, using
  its highest level of decision-making Township; to be reported as committed, amounts cannot be
  used for any other purpose unless the government takes the same highest-level action to remove
  or change the constraint
- Assigned fund balance amounts the Township intends to use for a specific purpose; intent can be expressed by the governing body or by an official or body to which the governing body delegates the Township.
- Unassigned fund balance amount that are available for any purpose

## NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

# **FUND BALANCE** (Continued)

The Township establishes (and modifies or rescinds) fund balance commitments by passage of an ordinance or resolution. This is typically done through adoption and amendment of the budget. A fund balance commitment is further indicated in the budget document as a designation or commitment of the fund. The Township Manager has Township to assign fund balance.

When expenditures/expenses are incurred for purposes for which unrestricted (committed, assigned, and unassigned) resources are available, and amounts in any of these unrestricted classifications could be used, it is the Township's general policy to spend the committed resources first, followed by assigned amounts and then unassigned amounts.

## ESTIMATES

The preparation of financial statements in conformity with generally accepted accounting principles requires the Township's management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

## ADOPTION OF GASB PRONOUNCEMENTS

The requirements of the following GASB Statement was adopted for the Township's 2019 financial statements. Except where noted, the adoption of this pronouncement did not have a significant impact on the Township's financial statements.

GASB Statement No. 88, 'Certain Disclosures Related to Debt, including Direct Borrowings and Direct Placements'. The primary objective of this Statement is to improve consistency in the information that is disclosed in notes to government financial statements related to debt, including direct borrowings and direct placements, and to provide financial statement users with additional essential information about debt (See Note 6).

# PENDING GASB PRONOUNCEMENTS

GASB Statement No. 83, 'Certain Asset Retirement Obligations'. The primary objective of this Statement is to provide financial statement users with information about 'asset retirement obligations (ARO) that were not addressed in GASB Standards by establishing uniform accounting and financial reporting requirements for these obligations. The provisions of this Statement are effective for the Township's December 31, 2020 financial statements.

GASB Statement No. 84, *'Fiduciary Activities'*. The primary objective of this Statement is to enhance the consistency and comparability of fiduciary activity reporting by state and local governments. This Statement also is intended to improve the usefulness of fiduciary activity information primarily for assessing the accountability of governments in their roles as fiduciaries. The provisions of this Statement are effective for the Township's December 31, 2020 financial statements.

GASB Statement No. 87, 'Leases'. The primary objective of this Statement is to better meet the information needs of financial statement users by improving accounting and financial reporting for leases; enhancing the comparability of financial statements between governments; and also enhancing the relevance, reliability (representational faithfulness), and consistency of information about the leasing activities of governments. The provisions of this Statement are effective for the Township's December 31, 2022 financial statements.

## NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### PENDING GASB PRONOUNCEMENTS (Continued)

GASB Statement No. 89, 'Accounting for Interest Cost Incurred before the end of a Construction Period'. The primary objectives of this Statement are (a) to enhance the relevance and comparability of information about capital assets and the cost of borrowing for a reporting period and, (b) to simplify accounting for certain interest costs. The provisions of this Statement are effective for the Township's December 31, 2021 financial statements.

GASB Statement No. 90, *'Majority Equity Interests (an amendment of GASB Statements No. 14 and No. 61'*. The primary objectives of this Statement are to improve consistency in the measurement and comparability of the financial statement presentation of majority equity interests in legally separate organizations and to improve the relevance of financial statement information for certain component units. The provisions of this Statement are effective for the Township's December 31, 2020 financial statements.

GASB Statement No. 91, 'Conduit Debt Obligations'. The primary objectives of this Statement are to provide a single method of reporting conduit debt obligations by issuers and eliminate diversity in practice associated with (1) commitments extended by issuers, (2) arrangements associated with conduit debt obligations, and (3) related note disclosures. The provisions of this Statement are effective for the Township's December 31, 2022 financial statements.

GASB Statement No. 92, 'Omnibus 2020'. The primary objectives of this statement are to enhance comparability in accounting and financial reporting and to improve the consistency of authoritative literature by addressing practice issues that have been identified during implementation and application of GASB Statement Nos. 73, 74, 84, and 87. In addition the Statement addresses various topics and includes specific provisions concerning the following:

- Measurement of liabilities (and assets, if any) related to asset retirement obligations (ARO') in a government acquisition
- Reporting by entity risk pools for amounts that are recoverable from reinsurers or excess insurers
- Reference to nonrecurring fair value measurements of assets or liabilities in authoritative literature

The provisions of this Statements are effective for the Township's December 31, 2021 and December 31, 2022 financial statements.

GASB Statement No. 93, '*Replacement of Interbank Offered Rates*'. The primary objectives of this Statement are to address the accounting and financial reporting implications that result from the replacement of an interbank offering rate (IBOR). The provisions of this Statement are effective for the Township's December 31, 2022 financial statements.

GASB Statement No. 94, 'Public-Private and Public-Public Partnerships and Availability Payment Arrangements'. The primary objectives of this Statement are to improve financial reporting by addressing issues related to public-private and public-public partnership arrangements (PPPs), and provide guidance for accounting and financial reporting for availability payment arrangements (APAs). The provisions of this Statement are effective for the Township's December 31, 2023 financial statements.

The implementation dates of the aforementioned pending GASB Statements have been updated to include the delayed implementation dates as set forth in recently issued (May 2020) GASB Statement No. 95. The effects of implementing these Statements on the Township's financial statements have not yet been determined.

#### **NOTE 2 - CASH DEPOSITS AND INVESTMENTS**

#### CASH DEPOSITS:

At December 31, 2019, the Township of Hopewell had the following carrying values on its cash and cash equivalent accounts:

	Bank Balance			(Memo On Book Balaı			
General Fund	\$	1,981,540	-	\$	1,731,598		
Proprietary Funds		761,721			761,430		
Fiduciary Funds		124,239			124,239		
	\$	2,867,500	#	\$	2,617,267		

The difference between the bank balance and the carrying value represents year-end reconciling items such as deposits in transit and outstanding checks. The Federal Deposit Insurance Corporation (FDIC) coverage threshold for government accounts is \$250,000 per official custodian. This coverage includes checking and savings accounts, money market deposits accounts, and certificates of deposit.

## Custodial Credit Risk:

Custodial credit risk is the risk that in the event of a bank failure, the Township's deposits over the FDIC insurance limit may not be returned to it. The Township does not have a policy for custodial credit risk. As of December 31, 2019, \$2,617,500 of the Township's deposits were exposed to custodial credit risk as this amount represents uninsured deposits collateralized with securities held by the pledging financial institution or by its trust department or agent, but not in the Township's name. In accordance with Act Number 72-1971 Session of the Commonwealth of Pennsylvania, deposits of the Township, in excess of \$250,000, are collateralized by securities pledged to a pooled public funds account with the Federal Reserve System.

#### INVESTMENTS:

The fair value and maturity term of the Township's investments as of December 31, 2019 are as follows:

	 lo Stated Maturity	Credit Rating
Governmental Funds: PLGIT	\$ 4,556,247	AAAm
Fiduciary Funds:		
Mutual Funds	\$ 2,283,516	N/A
Common Stocks	2,863,051	N/A
Corporate Bonds	1,169,292	AA-BAA3
US Government Securities	1,946,223	AAA
Mortgage Backed Securities	521,758	N/A
Municipal Bonds	104,089	AA1-AA2
Other Fixed Income Securities	164,986	A1-BAA1
	\$ 9,052,915	

# NOTE 2 - CASH DEPOSITS AND INVESTMENTS (Continued)

# **INVESTMENTS: (Continued)**

The purpose of the Pennsylvania Local Government Investment Trust (PLGIT) is to enable governmental units to pool their available funds for investments authorized under the Intergovernmental Cooperation Act of 1972. The funds operate in a manner consistent with the SEC's Rule 2(a)7 of the Investment Company Act of 1940. The Township's position in the external investment pool is the same as the value of the pool shares and is reported at amortized cost which approximates fair value. PLGIT activities are invested directly in a portfolio of securities, which are held by a third-party custodian. The Township can withdraw funds from the external investment pool without limitation or fees upon adequate notice. Copies of the PLGIT annual report can be obtained by contacting their website of <u>www.plgit.com</u>.

# Custodial Credit Risk:

For an investment, custodial credit risk is the risk that the counterparty to an investment transaction will fail and the Township will not recover the value of the investment or collateral securities that are in possession of an outside party. The Township does not have a formal investment policy for custodial credit risk.

# Credit Risk:

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The Township has no formal investment policy, in addition to the requirements of the Township Code and the Intergovernmental Cooperation Act, that limits its investment choices based on credit ratings by nationally recognized rating organizations. The Township does not have a policy that would limit its investment choices to those with certain credit ratings.

# Interest Rate Risk:

The Township does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

# Concentration of Credit Risk:

The Township places no limit on the amount it may invest in any one issuer.

# Fair Value Measurements:

The Township of Hopewell's investments are reported at fair value within the fair value hierarchy established by generally accepted accounting principles. GASB Statement No. 72, *Fair Value Measurement and Application, provides a* framework for measuring fair value which establishes a three-level fair value hierarchy that prioritizes the inputs to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable (level 3 measurements). The three levels of the fair value hierarchy are described below:

**Level 1** – Observable inputs that reflect quoted prices for identical assets or liabilities in active markets such as stock quotes

**Level 2** – Includes inputs other than level 1 inputs that are directly or indirectly observable in the marketplace such as yield curves or other market data

## NOTE 2 - CASH DEPOSITS AND INVESTMENTS (Continued)

## **INVESTMENTS: (Continued)**

## Fair Value Measurements: (Continued)

**Level 3** – Unobservable inputs which reflect the reporting entity's assessment of the assumptions that market participants would use in pricing the asset or liability including assumptions about risk such as bid/ask spreads and liquidity discounts.

The following schedule presents the Investments of the Township by level within the fair value hierarchy:

			Value		Fair \	ents			
		at 12/31/19		Level 1		Level 2		L	evel 3
Mutual Funds	2,283,516	\$	2,283,516	\$	-	\$	2,283,516	\$	-
Common Stocks	2,863,051		2,863,051		-		2,863,051		-
Corporate Bonds	1,169,292		1,169,292		-		1,169,292		-
US Government Securities	1,946,223		1,946,223		-		1,946,223		-
Mortgage Backed Securities	521,758		521,758		-		521,758		-
Municipal Bonds	104,089		104,089		-		104,089		-
Other Fixed Income Securities	164,986		164,986		-		164,986		-
		\$	9,052,915	\$	-	\$	9,052,915	\$	-

Investments held in external investment pools such as PLGIT are not subject to the provisions of fair value measurements as they are recorded at amortized cost.

At December 31, 2019, the following are investments (other than U.S. Governmental and U.S. Government guaranteed obligations), that represent five percent or more of the net position available for benefits:

	Pol	Police Pension Plan		
Mutual Funds	\$	2,283,516		
Common Stocks		2,863,051		
Corporate Bonds		1,169,292		
Mortgage Backed Securities		521,758		
	\$	6,837,617		

## **NOTE 3 - PROPERTY TAXES**

The Township of Hopewell levies property taxes March 1 of each calendar year. The calendar dates for payment of these taxes is as follows:

## PAYMENT PERIOD

March 1 – April 30, 2019(Discount period)May 1 – June 30, 2019(Face period)July 1 and after(Penalty period)

Taxpayers are entitled to a 2% discount if taxes are paid prior to April 30th. Collections after July 1st are assessed a 10% penalty. Unpaid taxes are sent to the Township's Delinquent Real Estate Tax Collector for collection or subsequent lien with Beaver County. Unpaid taxes as of December 31, 2019 totaling \$115,745 represent 4.8% of the original assessment for 2019 of \$2,424,451. The tax millage assessment for the 2019 calendar year is 14 mills on the assessed value of land and buildings, which represents \$14.00 of revenue for every \$1,000 of assessed value. Taxes receivable as shown in the government-wide statement of net position includes prior year property taxes of \$231,283.

For purposes of the governmental fund financial statements, the above property taxes receivable, although measurable, does not meet the available criteria to finance current fiscal year operations. Accordingly, this amount (\$231,283) is equally off-set as a credit to deferred inflows of resources in the fund financial statements.

The effect of recognizing property tax revenue when taxes are levied, as opposed to when they are received using the 'measurable and available' criteria under the modified accrual basis of accounting, is reflected in the required reconciliations of fund balance to net position (Exhibit D) and the changes in fund balances to the changes in net position (Exhibit F).

Taxes receivable are comprised of the following at December 31, 2019:

	\$ 646,327
Act 511 Taxes	372,812
Property Taxes, Net	\$ 273,515

# NOTE 4 – ACCOUNTS RECEIVABLE

Accounts receivable as reflected on Exhibits A, C and H consists of the following at December 31, 2019:

GENERAL FUND:		
Cable franchise fees	\$	37,094
Deed Transfer Tax		4,621
Fines and Forfeitures		2,145
Grants		10,701
Permits		8,871
Refunds		7,192
Miscellaneous		9,099
Total Accounts Receivable	\$	79,723
SEWER FUND:		
Unbilled Sewer Collections	\$	494,995
	\$	494,995 279,304
Unbilled Sewer Collections	\$	,
Unbilled Sewer Collections	÷	279,304

# **NOTE 5 - CAPITAL ASSETS**

A summary of the governmental activity for the 2019 calendar year was as follows:

	Balance 1/1/2019	Additions	De	ductions	Balance 12/31/2019
Land	\$ 1,530,899	\$ -	\$	-	\$ 1,530,899
Building and Building Improvements	2,993,912	343,354		-	3,337,266
Vehicles and Equipment	1,926,633	293,698		35,627	2,184,704
Infrastructure	3,295,153	-		-	3,295,153
	\$ 9,746,597	\$ 637,052	\$	35,627	\$ 10,348,022
Less: Accumulated depreciation					
Building and Building Improvements	\$ (1,542,246)	\$ (195,652)	\$	-	\$ (1,737,898)
Vehicles and Equipment	(1,472,397)	(86,507)		-	(1,558,904)
Infrastructure	(731,892)	(118,973)		(29,439)	(821,426)
	\$ (3,746,535)	\$ (401,132)	\$	(29,439)	\$ (4,118,228)
Governmental Activities Capital Assets, Net	\$ 6,000,062	\$ 235,920	\$	6,188	\$ 6,229,794

Depreciation expense was allocated to governmental activities as follows:

Administration	\$ 27,624
Public Safety	48,537
Public Works	324,972
Parks	5,215
	\$ 401,132

# NOTE 5 - CAPITAL ASSETS (Continued)

A summary of the business-type activity for the 2019 calendar year was as follows:

	Balance 1/1/2019		Additions		Deductions		Balance 12/31/2019	
Land	\$	90,138	\$	-	\$	-	\$	90,138
Construction in Progress		21,370		-		-		21,370

Vehicles & Equipment		681,726		121,335		54,840		748,221
	\$	20,973,206	\$	661,335	\$	54,840	\$	21,579,701
Less: Accumulated depreciation							-	
Sewer Line Infrastructure	\$	(7,799,247)	\$	(351,832)	\$	-	\$	(8,151,079)
Sewer Plant and Buildings		(2,158,249)		(60,603)		-		(2,218,852)
Vehicles and Equipment		(567,642)		(30,572)		(54,840)		(543,374)
	\$	(10,525,138)	\$	(443,007)	\$	(54,840)	\$	(10,913,305)
Business-Type Activities Capital Assets	\$	10,448,068	\$	218,328	\$	-	\$	10,666,396

## NOTE 6 - INTER-FUND OBLIGATIONS AND TRANSFERS

Inter-fund transfers as reflected on the governmental funds and proprietary funds balance sheets (Exhibits E & I) are as follows:

	 то	 FROM
General Fund	\$ 160,000	\$ 200,000
Sewer Fund	-	360,000
GF Capital Project Fund	200,000	-
SF Capital Project Fund	200,000	-
	\$ 560,000	\$ 560,000

During the year ended December 31, 2019, the Sewer Fund transferred \$160,000 to the General Fund. This was reimbursement for water, sewer, and refuse services that were paid from the General Fund. The other transfers were for future capital expenditures.

At December 31, 2019, the Sewer Fund owed the General Fund \$1,270 and the General Fund owed the Sewer fund \$1,238.

## NOTE 7 - LONG-TERM DEBT OBLIGATIONS

## **GOVERNMENTAL ACTIVITIES**

# DIRECT BORROWING - GENERAL OBLIGATION NOTE - SERIES of 2011

During 2011, the Township issued \$1,131,433 of its General Obligation Refunding Note, Series of 2011, bearing interest rate of 2.5%. The note proceeds were used to redeem the Township's General Obligation Bonds, Series of 2004. Monthly principal payments are \$2,843.96. The note is scheduled to mature in December of 2021.

#### DEFAULT PROVISIONS

The Township's outstanding note from direct borrowing contain a provision that in an event of default, all outstanding amounts may become immediately due and payable. The notes are secured by the pledge of and security interest in all taxes and revenues of the Township until the loans are paid in full.

## BONDS PAYABLE - SERIES A of 2014

During 2014, the Township issued \$1,105,000 of its General Obligation Refunding Bonds, Series A 2014 The bond proceeds were used to refund the Township's General Obligation Bonds, Series of 2009 and to pay the costs of issuing the 2014 Bonds. The bonds were issued in denominations of \$5,000 with interest payable semi-annually on May 1 and November 1 at rates ranging between 2.3% and 4.0%. The Bonds mature in May of 2020.

#### **DEFAULT PROVISIONS**

The Township has covenanted that it will provide in its budget for each year, and will appropriate from its revenues in each such year the amount of debt service on the bonds for such year, and will punctually pay or cause to be paid from its Sinking Fund, or any other of its available revenues or funds, the principal of, and the interest on the Bonds, as and when due in the manner stated on the bonds. For such budgeting, appropriation, and payment, the Township has irrevocably pledged its full faith, credit, and taxing power subject to the limitations of bankruptcy, insolvency, and other laws or equitable principles affecting creditor rights generally.

In the event of failure of the Township to pay or cause to be paid the interest on or principal of the Bonds, the holders of the Bonds shall be entitled to certain remedies provided by the Pennsylvania Local Government Debt Act of 1996. If failure to pay shall continue for 30 days, holders of the Bonds shall have the right (subject to certain priorities created under the Act) to recover the amount due by bringing an action in assumpsit in the Court of Common Pleas of Allegheny County, Pennsylvania; any judgement shall have an appropriate priority upon the moneys next coming into the treasury of the Township. The Act also provides that upon default of at least 30 days, holders of at least 25% of the Bonds may appoint a trustee to represent them. The Act sets for the powers and duties of such trustee to enforce the rights of the holders of the Bonds.

# NOTE 7 - LONG-TERM DEBT OBLIGATIONS (Continued)

## **GOVERNMENTAL ACTIVITIES** (Continued)

## BONDS PAYABLE – SERIES of 2014 (Continued)

A following summarizes the governmental activities debt service obligation for this general obligation note and bonds as of December 31, 2019:

Year End 31-Dec	 es A 2011 rincipal	Series of 2014 Principal		In	iterest	 Total
2020	\$ 34,128	\$	90,000	\$	2,237	\$ 126,365
2021	 33,378		-		468	 33,846
	\$ 67,506	\$	90,000	\$	2,705	\$ 160,211

## **DIRECT BORROWINGS - CAPITAL LEASE OBLIGATIONS**

In October of 2018, the Township, the Township entered into a lease agreement with KS State Bank in the amount of \$40,354 for the purchase of a 2018 Ford Interceptor for the Police Department. The lease calls for three (3) annual principal and interest payments of \$15,814 beginning October of 2018. The interest rate is 3.40% and the lease obligation is scheduled to mature in October of 2020.

In December of 2018 the Township entered into a lease agreement with KS State Bank in the amount of \$10,371 for the purchase of vehicle equipment for the Police Department. The lease calls for three (3) annual principal and interest payments of \$3,897 beginning December of 2018. The interest rate is 6.20% and the lease obligation is scheduled to mature in December of 2020.

In February of 2019 the Township entered into a lease agreement with KS State Bank in the amount of \$12,383 for the purchase of a 2018 Ford Explorer for the Police Department. The lease calls for three (3) annual principal and interest payments of \$4,626 beginning February of 2019. The interest rate is 4.44% and the lease obligation is scheduled to mature in February of 2021.

In April of 2019 the Township entered into a lease agreement with KS State Bank in the amount of \$42,849 for the purchase of a 2019 Asphalt Compactor for the Road Department. The lease calls for three (3) annual principal and interest payments of \$15,285 beginning April of 2019. The interest rate is 4.44% and the lease obligation is scheduled to mature in April of 2021.

In May of 2019 the Township entered into a lease agreement with KS State Bank in the amount of \$151,188 for the purchase of dump trucks for the Road Department. The lease calls for five (5) annual principal and interest payments of \$33,408 beginning May of 2019. The interest rate is 4% and the lease obligation is scheduled to mature in May of 2023.

In October of 2019 the Township entered into a lease agreement with KS State Bank in the amount of \$13,585 for the purchase of a 2019 Ford F-150 for the Police Department. The lease calls for three (3) annual principal and interest payments of \$5,040 beginning October of 2019. The interest rate is 3.86% and the lease obligation is scheduled to mature in October of 2021.

# NOTE 7 - LONG-TERM DEBT OBLIGATIONS (Continued)

# **GOVERNMENTAL ACTIVITIES** (Continued)

# DIRECT BORROWINGS - CAPITAL LEASE OBLIGATIONS (Continued)

#### DEFAULT PROVISIONS

If any Event of Default occurs on the above leases, all commitments and obligations of Lessors, under the lease agreements, immediately will terminate (including any obligation to make further loan advances or disbursements), and at the opti/on of the Lessor, all indebtedness immediately will become due and payable, all without notice of any kind to the Township. The leases also contain provisions that allow the Lessor the right to take possession of the leased equipment.

The following summarizes the governmental activities debt service obligation for these direct borrowing capital lease obligations as of December 31, 2019:

Year End 31-Dec	P	2018 rincipal	2018 incipal	2019 incipal	P	2019 rincipal	P	2019 rincipal	2019 incipal

2023		2,541	 34,169
	\$	25,980	\$ 206,320

# **BUSINESS-TYPE ACTIVITIES**

# **BONDS PAYABLE – SERIES B OF 2014**

During 2014, the Township issued \$4,225,000 of its General Obligation Refunding Bonds, Series B 2014. The bond proceeds were used to refund the Township's General Obligation Bonds, Series of 2009 and to pay the costs of issuing the 2014 Bonds. The bonds were issued in denominations of \$5,000 with interest payable semi-annually on May 1 and November 1 at rates ranging between .14% and 4.0%. The Bonds mature in May of 2024.

#### BONDS PAYABLE - SERIES OF 2017

During 2014, the Township issued \$4,540,000 of its General Obligation Refunding Bonds, Series 2017. The bond proceeds were used to redeem the Township's General Obligation Bonds, Series B of 2011 and to pay the costs of issuing the 2017 Bonds. The bonds were issued in denominations of \$5,000 with interest payable semi-annually on April 1 and October 1 at rates ranging between 1.15% and 3.0%. The Bonds mature in October of 2029.

# NOTE 7 - LONG-TERM DEBT OBLIGATIONS (Continued)

#### **BUSINESS-TYPE ACTIVITIES** (Continued)

#### BOND PREMIUMS

In connection with the Township's general obligation bond issues, the Township paid approximately \$140,050 in bond premiums. This cost is being amortized on a straight-line basis. The unamortized amount of bond premiums totaling \$42,545 is reflected in the governmental activities column on the government-wide statement of net position as part of the long-term portion of bonds payable. Amortization expense for the year ended December 31, 2019 was \$50,582. This amount is reflected in the interest expense function in the statement of activities.

## DEFAULT PROVISIONS

See detailed default provisions on bonds in governmental activity section of the long-term debt obligation note.

A following summarizes the business-type activities (proprietary fund) debt service obligation for these general obligation bonds as of December 31, 2019:

Year End 31-Dec	 ries of 2014 Principal	 ries of 2017 Principal	Interest	 Total
2020	\$ 525,000	\$ 100,000	\$ 132,681	\$ 757,681
2021	530,000	105,000	120,331	755,331
2022	435,000	175,000	107,066	717,066
2023	50,000	480,000	92,300	622,300
2024	50,000	480,000	77,863	607,863
2025-2029	-	2,975,000	169,813	3,144,813
	\$ 1,590,000	\$ 4,315,000	\$ 700,054	\$ 6,605,054

# **DIRECT BORROWINGS - CAPITAL LEASE OBLIGATIONS**

In March of 2019 the Township entered into a lease agreement with KS State Bank in the amount of \$37513 for the purchase of a 2019 Ford F-150 for the Sewer Department. The lease calls for three (3) annual principal and interest payments of \$13,448 beginning March of 2019. The interest rate is 4.55% and the lease obligation is scheduled to mature in March of 2021.

In May of 2019 the Township entered into a lease agreement with KS State Bank in the amount of \$79,323 for the purchase of dump trucks for the Sewer Department. The lease calls for five (5) annual principal and interest payments of \$50,936 beginning May of 2019. The interest rate is 4% and the lease obligation is scheduled to mature in May of 2023.

#### DEFAULT PROVISIONS

If any Event of Default occurs on the above leases, all commitments and obligations of Lessors, under the lease agreements, immediately will terminate (including any obligation to make further loan advances or disbursements), and at the option of the Lessor, all indebtedness immediately will become due and payable, all without notice of any kind to the Township. The leases also contain provisions that allow the Lessor the right to take possession of the leased equipment.

# NOTE 7 - LONG-TERM DEBT OBLIGATIONS (Continued)

## BUSINESS-TYPE ACTIVITIES (Continued)

# DIRECT BORROWINGS - CAPITAL LEASE OBLIGATIONS (Continued)

The following summarizes the business type activity (proprietary fund) debt service obligation for these direct borrowing capital lease obligations as of December 31, 2019:

YEAR	PR	2009 INCIPAL	2019 PRINCIPAL		TOTAL INTEREST		٦	FOTAL
2020	\$	11,584	\$	14,284	\$	5,108	\$	30,976

#### **NOTE 9 - TOWNSHIP PENSION PLANS**

# NON-UNIFORM PENSION PLAN

## **DESCRIPTION OF PLAN**

The Township of Hopewell pension plan is a single-employer defined benefit pension plan controlled by the provisions of a resolution adopted pursuant to Act 15 of 1974. The plan participates in the Pennsylvania Municipal Retirement System (PMRS), which is an agent multiple-employer public employee retirement system that acts as a common investment and administrative agent for participating municipal pension plans. PMRS issues a separate Comprehensive Annual Financial Report (CAFR). A copy of the CAFR can be obtained by contacting the PMRS accounting office or visiting their website at pmrs.state.pa.us.

## PLAN MEMBERSHIP

Plan membership consisted of the following as of January 1, 2019:

Active plan members	30
Retirees and beneficiaries	
currently receiving benefits	21
Terminated employees entitled to	
benefits but not yet receiving them	1
Total	52

# PLAN BENEFITS

The plan provides retirement and death benefits to eligible plan members and their beneficiaries. Effective January 1, 2009, the plan allows for a normal retirement benefit at age 60 or older with at least 20 years of credited service. No early retirement benefits are available. Monthly pension benefits are detailed in plan documents. Participants are fully vested upon completion of three (3) years of service.

# PLAN CONTRIBUTION REQUIREMENTS

Employer contributions are actuarially determined reflecting a payment equal to annual Normal Cost, the expected Administrative Expenses, and an amount necessary to amortize the remaining Unfunded Actuarial Liability as a level dollar amount over a closed period. This contribution is based upon the Minimum Municipal Obligation (MMO) as defined in Act 205. For the calendar year 2019, the Township contributed \$155,907 to the plan. This contribution to the pension plan, subsequent to the measurement date of the Township's net pension liability (NPL), is recognized as a component of 'deferred outflows of resources – pension' on the statement of net position. Employee contributions are currently not required.

#### **NOTE 9 - TOWNSHIP PENSION PLANS**

#### **NON-UNIFORM PENSION PLAN** (Continued)

#### PENSION LIABILITIES, PENSION EXPENSE, AND DEFERRED OUTFLOWS OF RESOURCES AND DEFERRED INFLOWS OF RESOURCES RELATED TO PENSIONS

The Township's total pension liability (TPL) was measured as of December 31, 2018 based upon the actuarial valuation as of the same date. The actuarial valuation does not reflect changes in benefits or assumptions after January 1, 2019. Because the beginning and end of year TPL are based upon different actuarial valuation dates, there is a difference between expected and actual experience. The beginning of year TPL is based on the January 1, 2017 actuarial valuation, with liabilities rolled forward to December 31, 2017 and reflecting the impact of plan changes if applicable. The end of year TPL is based on the January 1, 2019 actuarial valuation with liabilities measured at December 31, 2018.

The following shows the changes in the Total Pension Liability (TPL), the Plan Fiduciary Net Position (fair value of plan assets), and the Net Pension Liability (NPL) as of the Measurement date.

	Total Pension Liability ( a )		Plan Fiduciary Net Position ( b )		N	et Pension Liability ( c )
Balances at 12/31/17	\$	7,006,950	\$	6,972,869	\$	34,081
Changes for the year:						
Service cost		170,390				170,390
Interest		364,563				364,563
Changes of benefits		48,987				48,987
Changes of assumptions		-				-
Differences between expected						
and actual experience		312,797				312,797
Contributions - employer				165,531		(165,531)
Contributions - PMRS assessment				1,120		(1,120)
Contributions - member				56,873		(56 <i>,</i> 873)
PMRS investment income				328,923		(328,923)
Market value investment income *				(628,249)		628,249
Benefit payments		(472,605)		(472,605)		-
PMRS administrative expense				(1,080)		1,080
Additional administrative expense				(14,678)		14,678
Net changes		424,132		(564,165)		988,297
Balances at 12/31/18	\$	7,431,082	\$	6,408,704	\$	1,022,378

\* Reflects the net investment income/(loss) of \$730,799 and income/(loss) due to the difference between expected and actual asset values of (\$28,947) which includes the impact from allocation of assets in support of the underlying retiree liabilities.

# NOTE 9 - TOWNSHIP PENSION PLANS (Continued)

## **NON-UNIFORM PENSION PLAN** (Continued)

#### PENSION LIABILITIES, PENSION EXPENSE, AND DEFERRED OUTFLOWS OF RESOURCES AND DEFERRED INFLOWS OF RESOURCES RELATED TO PENSIONS (Continued)

The TPL as of December 31, 2018 was based upon the following actuarial assumptions:

- Actuarial Cost Method Entry Age Normal
- Rates of Pre-Retirement Mortality Males: RP 2000 male non-annuitant table projected 15 years with Scale AA; Females: RP 2000 female non-annuitant table projected 15 years with Scale AA and then setback 5 years
- Rates of Post-Retirement Mortality Males: RP 2000 male annuitant table projected 5 years with Scale AA; Females: female annuitant table projected 10 years with Scale AA
- Disabled Life Mortality Rates: Males and females: RP 2000 with 10 year set forward
- Termination Rates Before Retirement: Less than 25 active members sliding scale 1 year 15% down to 10 plus years at 2.5%. More than 25 active members sliding scale 1 year 18% down to 10 plus years at 4%.
- Disability Incidence Rates: 40% of 1964 OASDI (Social Security)
- Workers Compensation: Service-related disability benefits payable from municipal plans are offset by 25% of final average salary
- Salary Scale: Sliding scale age 25 (7.05%) down to age 65 (2.80%)
- Rates of Retirement: Under age 45 (2%), age 45 (8%), age 46 (10%), age 47-50 (15%), age 51-54 (17%), age 55 (22%), age 56-59 (14%), age 60-64 (18%), age 65 (25%), age 66-74 (20%), age 75 (100%)
- Marital Status and Spouse's Age (if applicable): 85% of active members, and are assumed to be married for retirees with the 50% J&S form of payment. Male spouses are assumed to be 3 years older than female spouses
- Social Security Projections (if applicable): Social security wage base will increase 3.3% compounded annually. CPI will increase 2.8% compounded annually, average total wages will increase 3.3% compounded annually
- Post-Retirement Cost of Living Increases: 2.8% per year, subject to plan limitations
- Investment Return: 5.25% compounded annually, net of expenses
- Administrative expenses: The expense assumption is based upon the expected expenses for the current year

These assumptions are based on the PMRS Experience Study for the period covering January 1, 2009 through December 31, 2013 issued by the actuary in July 2015, covering the defined benefit plan participants and all retirees, as well as subsequent Board approved assumption changes. These assumptions were first used for the December 31, 2015 measurement date. Effective with the December 31, 2016 measurement date, the Investment Return Assumption for municipal assets decreased from 5.50% to 5.25%.

According to Governmental Accounting Standards Board (GASB) Statements No. 67 and 68, PMRS is required to allocate/distribute all funds to the respective participating employers for financial reporting purposes, to determine the respective employer 'plan fiduciary net position.' PMRS has determined that net investment income or loss and administrative expenses will be allocated to the employer/municipality accounts pro-rata based on their beginning Fiduciary Net Position balance adjusted for cash flows throughout the year. The 'Additional administrative expenses' are the expenses in excess of the 'PMRS administrative expenses' (i.e. \$20 per participant expense paid by each plan). The 'PMRS investment income' is based upon the regular and excess interest used to credit accounts annually.

# NOTE 9 - TOWNSHIP PENSION PLANS (Continued)

## **NON-UNIFORM PENSION PLAN** (Continued)

# PENSION LIABILITIES, PENSION EXPENSE, AND DEFERRED OUTFLOWS OF RESOURCES AND DEFERRED INFLOWS OF RESOURCES RELATED TO PENSIONS (Continued)

The 'Market value investment income' reflects the investment income/loss during the year net of PMRS investment income and the income/loss due to the difference between expected and actual asset values, including the impact from allocation of assets in support of the underlying retiree liabilities.

The impact of investment gains or losses for expending is recognized over a period of five years. The impact of experience gains or losses and assumption changes on the TPL are recognized in the collective pension expense over the average expected remaining service live of all active and inactive members of the Plan. There were experience gains or losses between the beginning of the year and end of year liabilities because the liabilities are based upon two different actuarial valuation dates.

The following is a schedule of collective deferred inflows and outflows:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected		
and actual experience	\$ 234,598	\$ 149,527
Changes of assumptions	83,686	-
Net difference between		
projected and actual earnings		
on pension plan investments	111,329	-
Contributions after measurement date	155,097	
TOTAL	\$ 584,710	\$ 149,527

Amounts reported as deferred outflows of resources and deferred inflow of resources related to pensions will be recognized in pension expense as follows:

December 31,	
2019	\$ 44,695
2020	46,264
2021	63,478
2022	125,649
2023	-
Thereafter	-

## NOTE 9 - TOWNSHIP PENSION PLANS (Continued)

# NON-UNIFORM PENSION PLAN (Continued)

#### PENSION LIABILITIES, PENSION EXPENSE, AND DEFERRED OUTFLOWS OF RESOURCES AND DEFERRED INFLOWS OF RESOURCES RELATED TO PENSIONS (Continued)

The annual pension expense recognized can be calculated two different ways. First, it is the change in the amounts reported on for the Employer's Statement of Net Position that relate to the plan and are not attributable to employer contributions. That is, the change in Net Pension Liability (NPL) plus the changes in deferred outflows and deferred inflows plus employer contributions.

Alternatively, annual pension expense can be calculated by its individual components. Although not required by GASB, PMRS provides an example of this calculation at pmrs.state.pa.us/yearendrptg.

## **INVESTMENT ASSET ALLOCATION**

The PMRS System's long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimates of expected future real rates of return (expected returns, net of pension plan investment expenses and inflation) are developed for each major asset class. These ranges are combined to produce the Long-Term Expected Rate of Return, by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the pension plan's target asset allocation as of December 31, 2018 are summarized in the table below labeled "System Nominal and Real Rates of Return by Asset Class." These are three steps to the method as follows:

- 1. Expected future real rates of return are based primarily on the 20 year historic nominal rates of return as reflected by applicable return indexes and may be adjusted for specific asset classes if, in the Board's opinion, any such asset classes are expected in the future to significantly vary from its 20 year historical returns.
- 2. The nominal rates of return by asset class are adjusted by a constant rate of expected future annual inflation rate of 2.2% to produce real rates of return.
- 3. The long term expected real rates of return are further adjusted by weighing each asset class using the PMRS portfolio target asset allocations.

The results from steps 1 through 3 are shown below in the table below:

Asset Class	Target Asset Allocation	Nominal Rate of Return	Expected Real Rate of Return
Domestic Equities (large cap)	25%	7.3%	4.6%
Domestic Equities (small cap)	15%	10.0%	7.3%
International Equities (developing markets)	15%	6.2%	3.5%
International Equities (emerging markets)	10%	10.6%	8.3%
Real Estate	20%	8.5%	5.4%
Fixed Income	15%	3.3%	1.1%
Total Portfolio	100%	7.5%	4.8%

#### System Nominal and Real Rates of Return by Asset Class

long\_Torm

#### **NOTE 9 - TOWNSHIP PENSION PLANS (Continued)**

#### **NON-UNIFORM PENSION PLAN** (Continued)

#### **INVESTMENT ASSET ALLOCATION** (Continued)

Based on the three-part analysis, the Board established the System's Long-Term Expected Rate of Return at 7.0%.

In addition to determining the System's Long-Term Expected Rate of Return, the PMRS Board, under the laws of the Commonwealth of Pennsylvania (Act 15 of 1974), is obligated to develop and apply the Regular Interest Rate to each of the individual participating municipalities' actuarial asset accounts held by PMRS. The rationale for the difference between the System's Long-Term Expected Rate of Return and the individual participating municipalities' Regular Interest Rate is described in the following section "Discount Rate." As of December 31, 2018, this rate is equal to 5.25%.

The Board has determined the minimum acceptable confidence level for achieving the Regular Interest Rate to be 70%. The table below labeled "Confidence Levels for System Nominal and Real Rates of Return" identifies simulated portfolio returns at various confidence levels based on the most recent asset allocation study conducted by the Boards' investment consultant, Dahab Associates

# Confidence Levels for System Nominal and Real Rates of Return

	Long-Term
Nominal	Expected
Rate of	Real Rate
Return	of Return
3.5%	0.5%
4.4%	1.4%
5.1%	2.1%
5.7%	2.7%
6.1%	3.1%
6.5%	3.5%
7.9%	4.9%
	Rate of Return 3.5% 4.4% 5.1% 5.7% 6.1% 6.5%

#### DISCOUNT RATE

While it is often common practice to establish an actuarial Discount Rate that is equal to the Long-Term Expected Rate of Return, PMRS is required by law (Act 15 of 1974) to establish a Discount Rate equal to the Regular Interest Rate. (Regular Interest Rate/Discount Rate). The PMRS Board establishes the Regular Interest Rate on the basis of expected stable and consistent earnings on investments to be applied to the accounts of the individual participating municipalities and includes the accounts of plan participants, municipalities, and plan retirees each year. As a starting point, the Board considers the following five quantitative factors in establishing the Regular Interest Rate/Discount Rate:

- 1. Retiree Plan liability as a percentage of total Plan liability,
- 2. Active Plan participant liability as a percentage of total Plan liability,
- 3. Smoothed Pension Benefit Guarantee Corporation (PBGC) annuity rates as a proxy for annuity purchase rates,
- 4. PMRS System Long-Term Expected Rate of Return, and
- 5. PMRS investment expenses

## NOTE 9 - TOWNSHIP PENSION PLANS (Continued)

#### **NON-UNIFORM PENSION PLAN (Continued)**

The formula using these factors is as follows:

Regular Interest Rate = (Retiree Liability Percentage x Smoothed PBGC Annuity Rates) + (Active Employee Liability Percentage x System Long-Term Expected Rate of Return) – (Investment Expenses as a percentage of assets)

The Board may then adjust the Regular Interest Rate/Discount Rate derived from the formula due to a variety of qualitative factors such as the desire to minimize Regular Interest Rate/Discount Rate volatility, varying levels of asset allocation and liquidity, trending of PBGC annuity rates, total PMRS actuarial and market value funding ratios, feedback from existing PMRS municipalities, and recommendations from the System's investment and actuarial consultants. The Regular Interest Rate/Discount Rate adopted by the Board and used to measure the individual participating municipalities' total pension liability was 5.25% as of December 31, 2018.

The Regular Interest Rate/Discount Rate will likely result in a System Long-Term Expected Rate of Return. Should the System experience a prolonged period of investment returns in excess of the Regular Interest Rate, the Board is authorized to allocate any applicable portion of any such excess in accordance with Board policies in the form of Excess Interest as provided for in the law.

The projection of cash flows for each underlying municipal plan, used to determine if any adjustment to the Regular Interest Rate/Discount Rate was required ("depletion testing"), used the following assumptions: 1) member contributions will be made at the current contribution rate, 2) participating plan sponsors contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate, and 3) the System's Long-Term Expected Rate of Return will be used in the depletion testing of projected cash flows. Based on those assumptions, the PMRS pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members.

#### SENSITIVITY OF THE NET PENSION LIABILITY TO CHANGES IN THE DISCOUNT RATE

Changes in the discount rate affect the measurement of the TPL. Lower discount rates produce a higher TPL and higher discount rates produce a lower TPL. Because the discount rate does not affect the measurement of assets, the percentage change in the NPL can be very significant for a relatively small change in the discount rate. The table below shows the sensitivity of the NPL to the discount rate with two additional measures, plus and minus one percent from the rate used for the disclosure.

	1% Decrease (4.25%)	Current Discount Rate (5.25%)	1% Increase (6.25%)
Total Pension Liability Plan Fiduciary Net Position Net Pension Liability	\$ 8,236,307 6,408,704 <b>\$ 1,827,603</b>	\$ 7,431,082 6,408,704 <b>\$ 1,022,378</b>	\$ 6,744,709 6,408,704 <b>\$ 336,005</b>
Plan Fiduciary Net Position as a % of the Total Pension Liability	77.8%	86.2%	95.0%

#### NOTE 9 - TOWNSHIP PENSION PLANS (Continued)

## POLICE PENSION PLAN

## **DESCRIPTION OF PLAN**

The Hopewell Township Police Pension Plan is a single-employer defined benefit pension plan. The Plan was established September 12, 1955. The Plan was amended and restated effective January 1, 2007. The Plan is governed by the Board of Supervisors of Hopewell Township which may amend plan provisions, and which is responsible for the management of Plan assets. The Board of Supervisors has delegated the Township to manage certain Plan assets to Wells Fargo Bank. The plan is required to file Form PC-201C biennially with the Pennsylvania Department of the Auditor General's Municipal Pension Reporting Program (MPRP). The most recent filing was as of January 1, 2019.

Plan membership as of December 31, 2019 was comprised of:

Active employees	14
Retirees and beneficiaries currently receiving benefits	13
Terminated employees entitled to benefits	
but not yet receiving them	1
Total	28

A summary of the plan's benefit provisions is as follows:

PARTICIPANTS -	All full-time employees of the Township.			
<u>ELIGIBILITY</u> -	All participants are eligible for retirement benefits provided that they have attained the age of 50 and have completed 25 years of credited service. Participants are eligible for early retirement after 20 years of service.			
<u>VESTING</u> -	Vesting occurs 100% after twelve years of credited service.			
BENEFITS -	A monthly benefit equal to 50% of gross pay averaged over the last 36 months of employment, plus a service increment of \$100 for completion of 26 years of service.			
DEATH BENEFIT -	The plan provides for beneficiary benefits named by the participant under options as detailed in the retirement plan.			
FUNDING -	Members are required to contribute 5% of salary			

#### CONTRIBUTIONS

The employer follows the funding policy prescribed by Act 205 of 1984 (as amended), which requires that annual contributions be based upon the Minimum Municipal Obligation (MMO) using the plan's most recent biennial actuarial valuation. The MMO includes the normal cost, estimated administrative expenses and an amortization contribution of the unfunded actuarial accrued liability, less estimated member contributions, and a credit equal to 10% of the excess (if any) of the actuarial value of assets over the actuarial accrued liability. Employees are required to contribute 5.0 percent of the covered payroll to the Plan.

#### NOTE 9 - TOWNSHIP PENSION PLANS (Continued)

#### **POLICE PENSION PLAN** (Continued)

Administrative costs, which may include but are not limited to investment management fees and actuarial services, are charged to the Plan and funded through the MMO and/or plan earnings.

## DEPOSITS

At December 31, 2019, the Plan held no deposits.

#### **INVESTMENTS**

The Plan is authorized to invest in legal investments permitted under the Pennsylvania Fiduciaries Investment Act. According to an investment policy statement, the Plan's target asset allocation is as follows:

Asset Class	Target Percentage	Range
Equity	50%	40% to 60%
Fixed Income	45%	40% to 60%
Cash Equivalents	5%	0% to 20%

*Credit Risk* for investments is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The credit ratings of the plan's investments (excluding obligations explicitly guaranteed by the U.S. government) are indicated as follows:

Investment Type	Fair Value	Credit Rating
Collaterialized Security	\$ 4,481	Not Rated
Corporate Debt	148,597	Aa
Corporate Debt	623,053	А
Corporate Debt	501,506	Ваа
Corporate Debt	61,112	Ва
Corporate Debt	10	Not Rated
Municipal Bonds	104,089	Aa
Money Market Fund	124,239	Not Rated
Total	\$ 1,567,087	

*Concentration of Credit Risk* is the risk of loss attributed to the magnitude of an investment in a single issuer. At December 31, 2018, the Plan had the following investments (other than U.S. Government and U.S. Government guaranteed, mutual funds, or other pooled investments) in any one issue that represents 5% of more of Fudiciary Net Position. ( $$9,214,574 \times 5\% = $460,729$ ):

iShares Core S&P 500 ETF	\$ 946,447
iShares Core S&P Small-Cap ETF	465,871

## **NOTE 9 – TOWNSHIP PENSION PLANS** (Continued)

# POLICE PENSION PLAN (Continued)

The plan has no investment policy for interest rate risk. The maturities of the plan's debt investments are as follows:

	Investment Maturities (In Years)						
Investment Type	Fair Value	Less Than 1	1 - 5.99	6-10	More Than 10		
U.S. Treasuries	\$ 1,806,300	\$ 149,891	\$ 469,669	\$ 440,796	\$ 745,944		
U.S. Agencies	657,199	24	74,921	65,002	517,252		
Municipal Bonds	104,089	-	52,289	51,800	-		
<b>Collaterialized Securities</b>	4,481	-	-	-	4,481		
Corporate Debt	1,334,278	10	961,884	299,077	73,307		
Total	\$ 3,906,347	\$ 149,925	\$ 1,558,763	\$ 856,675	\$ 1,340,984		

## **NET PENSION LIABILITY**

The components of the net pension liability at December 31, 2019 are as follows:

Total pension liability	\$ 9,584,905
Plan fiduciary net position	(9,214,574)
Net pension liability	<u>\$ 369,521</u>
Plan fiduciary net position as a percentage of	
The total pension liability	96.1%

The total pension liability was determined by an actuarial valuation as of January 1, 2019 and rolled forward to the reporting date using the following significant actuarial assumptions applied to all periods included in the measurement:

Actuarial assumptions:

Inflation:	2.75%
Salary increases:	5.5% including inflation
Mortality:	RP-2014 Mortality Table with rates set forward 5 years for disabled lives.
	Mortality improvement based on the Long-Range Demographic Assumptions
	for the 2015 SSA's Trustee Report.

## NOTE 9 - TOWNSHIP PENSION PLANS (Continued)

#### **POLICE PENSION PLAN** (Continued)

#### **NET PENSION LIABILITY** (Continued)

Expected Long-TermRate of Return:7.25%, applied to all periods

The long-term expected rate of return on pension plan investments was determined using a building-block method in which the best-estimate ranges of expected future real rates of return (expected returns, net of inflation and investment expenses not funded through the MMO) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic rates of return for each major asset class included in the target asset allocation as of December 31, 2019, are summarized as follows:

	Long Term
Asset Class	Expected Real ROR
Equities	5% to 7.0%
Fixed Income	1% to 3.0%
Cash and Cash Equivalents	0.0% to 1.0%

#### **DISCOUNT RATE**

The discount rate used to measure the total pension liability was 7.25%. The projection of cash flows used to determine the discount rate assumed that the plan will continue to be funded based on the Minimum Municipal Obligation as determined in accordance with Act 205. Based on that assumption, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payment to determine the total pension liability.

# NOTE 9 – TOWNSHIP PENSION PLANS (Continued)

#### POLICE PENSION PLAN (Continued)

The following shows the changes in the Total Pension Liability (TPL), the Plan Fiduciary Net Position (fair value of plan assets), and the Net Pension Liability (NPL) as of the Measurement date (12/31/2019):

	Total Pension Liability ( a )		Plan Fiduciary Net Position ( b )		Net Pension Liability ( c )	
Balances at 12/31/18	\$	9,035,852	\$	7,713,838	\$	1,322,014
Changes for the year:						
Service cost		288,378		-		288,378
Interest		662,067		-		662,067
Changes of benefits		-		-		-
Changes of assumptions		-		-		-
Differences between expected						
and actual experience		10,431		-		10,431
Contributions - employer		-		330,181		(330,181)
Contributions - employee		-		70,783		(70,783)
Net investment income		-		1,564,526		(1,564,526)
Market value investment income		-		-		-
Transfers		-		-		-
Benefit payments		(412,633)		(412,633)		-
Administrative expense		-		(52,121)		52,121
Other changes		-		-		-
Net changes		548,243		1,500,736		(952 <i>,</i> 493)
Balances at 12/31/19	\$	9,584,095	\$	9,214,574	\$	369,521

#### SENSIVITY OF THE NET PENSION LIABILITY TO CHANGES IN THE DISCOUNT RATE

Changes in the discount rate affect the measurement of the TPL. Lower discount rates produce a higher TPL and higher discount rates produce a lower TPL. Because the discount rate does not affect the measurement of assets, the percentage change in the NPL can be very significant for a relatively small change in the discount rate. The following shows the sensitivity of the NPL to the discount rate with two additional measures, plus and minus one percent from the rate used for the disclosure.

		Current			
	1% Decrease (6.25%)	Discount Rate (7.25%)	1% Increase (8.25%)		
Net pension liability	\$ 1,535,735	\$ 369,521	\$ (605,650)		

## NOTE 9 - TOWNSHIP PENSION PLANS (Continued)

# POLICE PENSION PLAN (Continued)

# PAYABLE TO THE PENSION PLAN

At December 31, 2019, the Township did not owe anything to the Plan.

# PENSION EXPENSES AND EFEREED OUTFLOWS OF RESOURCES AND DEFERRED INFLOWS OF RESOURCES RELATED TO PENSIONS

#### Components of Pension Expenses for the Year Ended December 31, 2019:

Service Cost	\$ 288,378
Interest on the total pension liability	662,067
Recognition of differences between expected and actual experience	26,395
Changes in benefit terms	-
Recognition of changes of assumptions	86,906
Employee contributions	(70,783)
Projected earnings on pension plan investments	(553,016)
Recognition of differences between projected and actual earnings on	
plan investments	(647)
Pension plan admistrative expense	52,121
Other changes in fiduciary net position	 -
Total Pension Expense	\$ 491,421

At December 31, 2019, the Plan reported the following deferred outflows of resources and deferred inflows of resources related to pension from the following sources:

	Deferred Outflows of Resources		Deferred Inflows of Resources	
Differences between expected				
and actual experience	\$	88,707	\$	82,757
Changes of assumptions		321,549		-
Net difference between				
projected and actual earnings				
on pension plan investments		557,090		989,041
TOTAL	\$	967,346	\$	1,071,798

## NOTE 9 - TOWNSHIP PENSION PLANS (Continued)

#### **POLICE PENSION PLAN** (Continued)

#### PENSION EXPENSES AND EFEREED OUTFLOWS OF RESOURCES AND DEFERRED INFLOWS OF RESOURCES RELATED TO PENSIONS

Amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended	
December 31,	
2020	5 <i>,</i> 438
2021	(5,999)
2022	49,645
2023	(155,417)
2024	1,710
Thereafter	171

## **NOTE 10 - COMPENSATED ABSENCES**

The Township reports compensated absences in accordance with the provisions of applicable GASB Statements. Sick leave benefits are accrued as a liability at various rates per day for all employees in accordance with the terms of the Township's collective bargaining agreements or administrative guidelines. The number of days that can be accrued varies based on their contract and their years of service.

As of December 31, 2019, the liability for accrued sick leave is \$598,640 for governmental fund employees and \$131,866 for proprietary fund employees. The entire compensated absences liability of \$498,640 is shown as a non-current liability in the government-wide statement of net position. For governmental fund financial statements, compensated absences are recorded as expenditures when paid rather than accrued when earned as the likelihood of payment in the immediate fiscal year with available expendable resources is not assured.

#### NOTE 11 - OTHER POST-EMPLOYMENT BENEFITS

The Township provides termination benefits to all employees who qualify to retire. All such employees receive life insurance coverage of \$5,000 or \$15,000, depending on employee category when they begin retirement. Qualified police officers receive a one-time \$2,500 payout while non-uniform employees receive a payout based on their years of service and hourly rate at the time of retirement. The governmental activities liability for these future benefits to be paid to the retirees is estimated to be \$36,444, while the business-type activities (Sewer Fund) liability is estimated to be \$5,502 at December 31, 2019.

#### NOTE 12 - RISK MANAGEMENT

The township is exposed to various risks of loss related to torts, errors and omissions, natural disasters, and loss or damage of assets. These risks are covered by commercial insurance purchased from independent third parties. Settled claims for these risks have not exceeded commercial insurance coverage for the recent years. There were no significant reductions in the level of insurance coverage compared to the coverage in the prior year.

## **General Liability Risk Management**

The township participates as a member of the Pennsylvania Intergovernmental Risk Management Association (PIRMA) to address risks associated with comprehensive liability and property coverage. PIRMA differs from traditional insurance programs in the fact that PIRMA is owned by its members and serves only its members' interests. This governmental entity pool consists of approximately 600 members and provides claims handling for property and casualty claims, helps obtain stable costs for coverage specific to Pennsylvania governmental entities, and develops comprehensive, customized loss control services. The Township signed an intergovernmental contract where the funding requirement for each member of the pool is equal to the estimated cash outflow of the pool related to the Township on an annual basis.

There were no significant reductions in the level of insurance coverage compared to the coverage in the prior year.

Additional information regarding the pool can be found on PIRMA's website, www.pirma.org. PIRMA has an annual audit done in accordance with GASB pronouncements as well as Financial Accounting Standards Board (FASB) pronouncements as applicable.

#### **Dental and Vision Risk Management**

For its dental and vision insurance, the Township participates as a member of the Municipal Employers Insurance Trust (MEIT). MEIT was formed in 1968 for the purpose of providing certain benefits for eligible employers (any municipality, municipality Township, association of municipal employees of any Township, town, or township of the Commonwealth of Pennsylvania) and those employers who may later become eligible. MEIT acts as an agent for the eligible employers by collecting the insurance premiums and remitting the premiums to the various insurance providers. The Township pays a monthly premium to MEIT for its medical, dental, and vision insurance.

The trust agreement provides that MEIT will be self-sustaining through employer contributions sufficient to pay all insurance premiums from commercial insurance carriers and all administrative costs of MEIT.

The Township may withdraw from MEIT by giving 30 days' notice. The trust was established solely for the purpose of administering, holding, and maintaining insurance policies and other agreements related to the provision of benefits. Therefore, the Township has no right, title, or interest in the Trust Fund, and it has no right to the return of any monies paid into the Trust Fund.

## NOTE 12 – RISK MANAGEMENT (Continued)

#### Health Risk Management

For its health insurance, the Township participates as a member of the Teamsters No. 261 Employers Welfare Fund (Welfare Fund). The Welfare Fund was formed in 1950 for the purposes of providing certain benefits for eligible employers (who are parties to collective bargaining agreements with any union) and is an exempt organization under Internal Revenue Code Section 501(c)(9). The Welfare Fund acts as an agent for the eligible employers by collecting the insurance premiums and remitting the premiums to the various insurance providers. The Township pays premiums to the Welfare Fund for its medical insurance in accordance with collective bargaining agreements between the employers and Teamsters Local Union No. 261. The Insurance companies are paid to administer the plan.

The trust agreement provides that the Welfare Fund will be self-sustaining through employer and retiree contributions sufficient to pay all insurance premiums from commercial insurance carriers and all administrative costs of the Welfare Fund.

The Township may withdraw from the Welfare Fund by giving 30 days' notice. The trust was established solely for the purpose of administering, holding, and maintaining insurance policies and other agreements related to the provision of benefits. Therefore, the Township has no right, title, or interest in the Trust Fund, and it has no right to the return of any monies paid into the Trust Fund.

#### Workers Compensation Risk Management

For its workers' compensation insurance coverage, the Township participates in the Municipal Risk Management Workers' Compensation Pooled Trust, a public entity risk pool operated for the benefit of 202 cities, municipalities, townships, and municipal authorities. Trust underwriting and rate-setting policies are established after consultation with an independent actuary and certain approvals of the Pennsylvania Department of Labor and Industry as mandated by Act 44 of 1933 (Act 44). All Trust participants may be subject to a supplemental assessment/dividend based on the overall experience of the participants, pursuant to Act 44. Each participant of the Trust agrees to jointly and severally assume and discharge the liabilities arising under the Workers' Compensation Act and Occupational Disease Act of each and every participant in the Trust. Settled claims from these risks have not exceeded commercial insurance coverage for the past three years. The Trust purchases excess insurance coverage with statutory limits. The retention for this coverage is \$500,000 per occurrence. There were no significant changes in the levels of insurance coverage compared to the prior year. Political subdivisions joining the Trust must remain members for a minimum of four years. A member may withdraw from the Trust after that time by giving ninety days' notice, subject to approval by the Trust actuary under specified circumstances related to the continued fiscal stability of the pool. At the time of withdrawal, the participant is responsible for their share of assessments but has no claim on any assets of the Trust. Estimates of any additional assessments are unknown.

#### NOTE 13 - COMMITMENTS AND CONTINGENT LIABILITIES

## LEGAL MATTERS

The Township of Hopewell, in the normal course of operations, is party to various legal matters normally associated with municipalities such as real estate tax assessment appeals, personnel wage and benefits, and other miscellaneous legal matters. As of December 31, 2019, the Township is unaware of any pending litigation that would be material to the financial position of the Township of Collier.

## FEDERAL AND STATE FUNDING

The Township of Hopewell's state and federally funded programs, including its pension funds, are subject to program compliance audits by various governmental agencies. The audit scopes of these program compliance audits are different than the scope of financial audits performed by an outside, independent certified public accounting firm. The Township is potentially liable for any expenditure disallowed by the results of these program compliance audits. Management is not aware of any material items of noncompliance which would result in the disallowance of program expenditures.

# NOTE 14 – SUBSEQUENT EVENTS

Early in 2020, a new strain of the coronavirus (COVID-19) spread through China as well as other countries including the United States. The impact of the virus varies from region to region and from day to day, and any significant additional spreading of the virus could adversely affect the Township of Hopewell's business. The outbreak of the COVID-19 virus is likely to have a further negative impact in 2020 on the global and local economy and, in the future, might impact the Township of Hopewell's financial results in 2020 and beyond. Given the dynamic nature of this outbreak, however, the extent to which the COVID-19 virus impacts the Township of Hopewell's results will depend on future developments, which remain highly uncertain and cannot be predicted at this time.

Management has determined that there are no other events, other than the item mentioned above, subsequent to December 31, 2019 through the June 19, 2020 date of the 'Independent Auditor's Report', which is the date the financial statements were available to be issued, that require additional disclosure in the financial statements.

### TOWNSHIP OF HOPEWELL NOTES TO SCHEDULES OF REQUIRED SUPPLEMENTARY INFORMATION – POLICE PENSION PLAN DECEMBER 31, 2019

# NOTE 1 - FACTORS AND TRENDS USED IN THE ACTUARIAL VALUATION FOR PENSION BENEFITS

# **Changes in Benefit Terms**

- Effective 1/1/2007: Service increment change to \$500 for more than 30 years of service. Those retiring with 26-30 years get \$100.
- Effective 1/1/2007: An In-Service Retirement Option Program (IROP) was added.
- Effective 1/1/2013: The Service Increment for the chief of police was increased to \$100 for every year completed in excess of 25, up to \$500 for 30 years of service.

### **Changes to Assumptions**

- Effective 1/1/2007: Normal retirement assumption was changed from age 52 and 27 years of service, to age 50 and 25 years of service.
- Effective 1/1/2009: The basis for computing the actuarial value of assets was changed from 100% of market value to the four-year smoothing method.

### **Actuarial Methods and Assumptions**

The following actuarial methods and assumptions were used in the calculation of the most recent actuarially determined contributions reported in the required supplementary information:

Actuarial valuation date:	January 1, 2019
Actuarial cost method:	Entry Age
Amortization method:	Level Dollar Closed
Remaining amortization period:	12 years aggregate
Asset valuation method:	4-year smoothing
Inflation:	2.75%
Salary increases:	5.5% including inflation
Investment rate of return:	7.25% net of investment expenses not
	funded through the MMO, and including inflation
Mortality:	RP-2014 Mortality Table with Rates
	set forward 5 years for disabled members. Improvement
	projected based on Long-Range Demographic Assumptions
	for the 2015 SSA's Trusteee Report
Retirement Age:	The later of Normal Retirement Age or attained age

# TOWNSHIP OF HOPEWELL NOTES TO SCHEDULES OF REQUIRED SUPPLEMENTARY INFORMATION – NON-UNIFORM PENSION PLAN DECEMBER 31, 2019

# NOTE 1 - FACTORS AND TRENDS USED IN THE ACTUARIAL VALUATION FOR PENSION BENEFITS

# **Changes in Benefit Terms**

None

### **Changes in Actuarial Assumptions**

- Effective 12/31/15 the assumptions based on the PMRS Experience Study for the period covering January 1, 2009 through December 31, 2013 issued by the actuary in July 2015 first effective
- Effective 12/31/16, the investment return assumption for municipal assets decreased from 5.50% to 5.25%

### **Actuarial Methods and Assumptions**

The following actuarial methods and assumptions were used in the calculation of the most recent actuarially determined contributions reported in the required supplementary information:

Actuarial valuation date Actuarial cost method Amortization method Asset valuation method	1/1/2015 Entry Age Normal Level dollar based upon the amortization periods in Act 205 Based upon the municipal reserves
Actuarial Assumptions:	
Inflation	3.00%
Projected salary increases	2.8-7.05%
Investment rate of return	5.25%
Retirement age	Age 60 or upon attainment of 20 years of service
Mortality	Males: RP-2000 Non-annuitant table
	projected 15 years with Scale AA
	Females: RP-2000 Female Non-annuitant
	projected 15 years with Scale AA &
	then setback 5 years
