**To the Township Commissioners  
Township of Hopewell, Pennsylvania**

## **Independent Auditor's Report**

### **Opinions**

I have audited the accompanying financial statements of the governmental activities, business-type activities, each major fund and the aggregate remaining fund information of the Township of Hopewell, Beaver County, Pennsylvania as of and for the year ended December 31, 2022, and the related notes to the financial statements, which collectively comprise the Township of Hopewell's basic financial statements as listed in the table of contents.

In my opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, business-type activities, each major fund and the aggregate remaining fund information of the Township of Hopewell as of December 31, 2022 and the respective changes in financial position, where applicable cash flows and the budgetary comparison for the General Fund thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

### **Basis for Opinions**

I conducted my audit in accordance with auditing standards generally accepted in the United States of America. My responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of my report. I am required to be independent of the Township of Hopewell, and to meet my other ethical responsibilities, in accordance with the relevant ethical requirements relating to my audit. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my audit opinions.

### **Responsibilities of Management for the Financial Statements**

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Township of Hopewell's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

## **Auditor's Responsibilities for the Audit of the Financial Statements**

My objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, I:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Township of Hopewell's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in my judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Township of Hopewell's ability to continue as a going concern for a reasonable period of time.

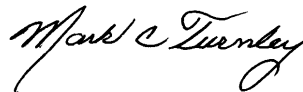

I am required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that I identified during the audit.

## **Required Supplementary Information**

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages iv-xvi and the defined benefit trust funds' historical pension information on pages 62-68 be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. I have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to my inquiries, the basic financial statements, and other knowledge I obtained during my audit of the basic financial statements. I do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

## Supplementary Information

My audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Township of Hopewell's basic financial statements. The supplementary information (Schedules 1 through 5) is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In my opinion, the supplementary information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

MANAGEMENT'S DISCUSSION AND ANALYSIS (MD&A)  
REQUIRED SUPPLEMENTARY INFORMATION (RSI)  
DECEMBER 31, 2022**

**INTRODUCTION**

This discussion and analysis of the Township of Hopewell's financial performance provides an overall review of the Township's financial activities for the year ended December 31, 2022. The intent of Management's Discussion and Analysis (MD&A) is to provide readers with an appreciation for the financial status of the Township, the challenges faced, and accomplishments achieved. The reader should also review the basic financial statements and notes to the basic financial statements to enhance their understanding of the Township's financial performance.

The Management Discussion and Analysis (MD&A) is an element of the reporting model adopted by the Governmental Accounting Standards Board (GASB) in their Statement No. 34 Basic Financial Statements and Management's Discussion and Analysis for State and Local Governments. Certain comparative information between the current year and the prior year is required to be presented in the MD& A.

**FINANCIAL HIGHLIGHTS**

Key financial highlights for 2022 are as follows:

- The Township's governmental activities net position increased \$1,621,191 in 2022 (13%), which increased total net position at December 31, 2022 to \$1,4763,258. The net position total includes prior period adjustments of \$775,287 for prior period revenue recognition adjustments and PMRS pension adjustments.
- Unrestricted governmental activities net position was \$5,498,083 at December 31, 2022. Unrestricted business-type activities net position was \$3,678,228 at December 31, 2022.
- General Fund unassigned fund balance at December 31, 2022 was \$4,237,401.
- The Township had previously adopted the provisions of Governmental Accounting Standards Board (GASB) Statement No. 68 – 'Accounting and Financial Reporting for Pensions'. The Township is required to recognize an actuarially determined net pension liability on their Statement of Net Position, along with deferred outflows and inflows related to the Township's employee pension plans. As of December 31, 2022, the net pension liability for the pension plans (police and non-uniformed) was a combined net of \$469,269 (recognized in both the governmental activities and business-type activities).

**USING THE ANNUAL FINANCIAL REPORT (GASB 34)**

The Annual Financial Report consists of the Management Discussion and Analysis (this section) and a series of financial statements and notes to those statements. These statements are organized so that the reader can understand the Township of Hopewell as an entire operating entity. The statements then proceed to provide an increasingly detailed look at specific financial activities.

The first two statements are government-wide financial statements – the Statement of Net Position and the Statement of Activities. These provide both long-term and short-term information about the Township's overall financial status.

The remaining statements are fund financial statements that focus on individual parts of the Township's operations in more detail than the government-wide statements. The governmental funds statements tell how general Township services were financed in the short term as well as what remains for future spending. The Proprietary fund statements provide information on the Sewer Fund. Fiduciary fund statements provide information about financial relationships where the Township acts solely as a trustee or agent for the benefit of others to whom the resources in question belong. The Police Pension Fund is the only fiduciary fund of the Township.

The financial statements also include notes that explain some of the information in the financial statements and provide more detailed data.

## **OVERVIEW OF FINANCIAL STATEMENTS**

### **GOVERNMENT-WIDE STATEMENTS**

The government-wide statements report information about the Township as a whole using accounting methods similar to those used by private-sector companies. The statement of net position includes all of the government's assets and liabilities. All of the current year's revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

The two government-wide statements report the Township's net position and how they have changed. Net position, the difference between the Township's assets and liabilities, are one way to measure the Township's financial health or position. Over time, increases or decreases in the Township's net position are an indication of whether its financial health is improving or deteriorating, respectively. To assess the overall health of the Township, you need to consider additional non-financial factors, such as changes in the Township's property tax base and the condition of the Township's infrastructure (roads and sewers).

The government-wide financial statements of the Township consist of the following categories:

- Governmental activities – All of the Township's basic services are included here, such as general administration, public safety and public works. Property and Act 511 taxes and state grants finance most of these activities.
- Business-type activities – The Township operates two sewer treatment plants.

**OVERVIEW OF FINANCIAL STATEMENTS (Continued)**

**FUND FINANCIAL STATEMENTS**

The Township's fund financial statements, which begin on Page 3, provide detailed information about the most significant funds – not the Township as a whole.

**Governmental Funds** – Most of the Township's activities are reported in governmental funds, which focus on the determination of financial position and change in financial position, not on income determination. They are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the Township's operations and the services it provides. Governmental fund information helps the reader determine whether there are more or fewer financial resources that can be spent in the near future to finance the Township's programs. The relationship (or differences) between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds is reconciled in the financial statements.

**Enterprise Funds** – The Township operates a sewer fund.

**Fiduciary Funds** – The Township is the trustee, or fiduciary, for the police pension and non-uniformed employee pension funds. All of the Township's fiduciary activities are reported in separate Statements of Fiduciary Net Position and Changes in Fiduciary Net Position on Pages 11 and 12. We exclude these activities from the Township's other financial statements because the Township cannot use these assets to finance its operations.

**FINANCIAL ANALYSIS OF THE TOWNSHIP AS A WHOLE**

The Township has presented its financial statements using the reporting model required by Government Accounting Standards Board Statement No. 34 (GASB Statement #34), "Basic Financial Statements and Management's Discussion and Analysis (MD&A) for State and Local Governments.

The results of this year's operations as a whole are reported in the Statement of Activities on Page 2. All expenses are reported in the first column. Specific charges, grants, revenues and subsidies that directly relate to specific expense categories are represented to determine the final amount of the Township's activities that are supported by other general revenues. The largest general revenues are local taxes assessed to and derived from community taxpayers.

**TO THE STATEMENT OF NET POSITION**  
**DECEMBER 31, 2022**

**Total Fund Balances - Governmental Funds** **\$ 8,300,080**

Amounts reported for governmental activities in the statement of net position (Exhibit A) are different from amounts reported for governmental funds on the balance sheet (Exhibit C) because:

Capital assets used in governmental activities are not financial resources, and therefore, are not reported as assets in governmental funds. The cost of assets is \$12,632,698 and the accumulated depreciation is \$5,553,972 7,078,726

Property taxes receivable in the statement of net position, which will not be available soon enough to pay for the current period's expenditures, are deferred and not recognized as revenue in governmental funds. 314,515

Deferred outflows and inflows of resources related to pensions are applicable to future periods and, therefore, are not reported in the funds.

Deferred outflows of resources related to pensions 2,733,055

Deferred inflows of resources related to pensions (1,869,198)

Long-term liabilities are not due and payable in the current period, and therefore, are not reported as liabilities in the governmental funds.

Long-term liabilities at year end consist of:

Amounts reported for governmental activities in the statement of activities are different because:

|                                                                                                                                                                                                                                                                                                                                                                                        |           |
|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------|
| Capital outlays are reported in governmental funds as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capital outlays (\$926,343) exceeds depreciation expense (\$550,379) in the period                                                           | 375,964   |
| Proceeds from long-term debt are an other financing source in the funds, but their payment increases long-term liabilities in the statement of net assets.                                                                                                                                                                                                                             | (352,080) |
| Repayment of debt principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net assets                                                                                                                                                                                                                                | 113,636   |
| The changes in the net pension liability, OPEB and related deferred outflows and inflows of resources does not affect current financial resources and therefore, not reflected in the fund statements                                                                                                                                                                                  | (74,368)  |
| Because certain property and wage taxes will not be collected for several months after the Township's year ends, they are not considered as "available" revenues in the governmental funds.                                                                                                                                                                                            | 60,689    |
| In the statement of activities, certain operating expenses - compensated absences and retiree benefits - are measured by the amounts earned during the year. In the governmental funds, however, expenditures for these items are measured by the amount of financial resources used (paid). This is the amount by which compensated absences earned exceeded the amount paid in 2022. | (13,237)  |

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

**REPORTING ENTITY**

The Township of Hopewell is a First-Class Township that was incorporated under the provisions governing the creation of municipal corporations in the Commonwealth of Pennsylvania. The administration of the Township consists of a five-member board of Commissioners and a Township Manager. Members of the Board of Commissioners are elected by the voting public. The Commissioners appoint a Township Manager to administer the day-to-day operations of the Township. The major functions of the Township include public safety, sanitation, maintenance of Township infrastructure (roads), maintenance of parks and other recreational programs, activities and facilities for use by Township residents, and general administrative functions necessary to facilitate Township responsibilities and resident needs.

A reporting entity is comprised of the primary government, component units and other organizations that are included to ensure the financial statements are not misleading. The primary government of The Township of Hopewell consists of all funds, departments, boards and agencies that are not legally separate from the Township. Generally accepted accounting principles define component units as legally separate entities that are included in the Township's reporting entity because of the significance of their operating or financial relationships with the Township. Based on the application of the above criteria, the Township of Hopewell has no component units.

**FINANCIAL STATEMENT PRESENTATION**

**GOVERNMENT-WIDE FINANCIAL STATEMENTS** – The statement of net position (Exhibit A) and the statement of activities (Exhibit B) display information about the Township as a whole. These statements combine all the financial activities of the primary government (Township of Hopewell), except for fiduciary funds. As a general rule, the effect of inter-fund activity has been removed from these statements. Governmental activities, which normally are supported by taxes, intergovernmental revenues and other nonexchange transactions, are reported separately from business-type activities, which rely to a significant extent on fees and charges for services. The statements distinguish between those activities of the Township that are governmental and those that are considered business-type activities.

The government-wide statements are prepared using the economic resources measurement focus. This approach differs from the manner in which governmental fund financial statements are prepared. Governmental fund financial statements therefore include reconciliations (Exhibits D and F) with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

The government-wide statement of activities presents a comparison between direct expenses and program revenues for each function of the Township's governmental activities and component unit. Direct expenses are those that are specifically associated with a service, program or department and are therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program, and grants, subsidies and contributions that are restricted to meeting the operational or capital requirements of a particular program.

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

**FUND FINANCIAL STATEMENTS** – Fund financial statements report detailed information about the Township. The focus of governmental fund financial statements is on major funds rather than reporting funds by type. Major funds represent the Township's most important funds and are determined based on percentages of assets, liabilities, revenues and expenditures. The General Fund always considered a major fund. Major funds are presented in a separate column and non-major governmental funds are segregated and combined in a single column. Fiduciary funds are reported separately.

**BASIS OF ACCOUNTING AND MEASUREMENT FOCUS**

The financial statements of Hopewell Township are prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is responsible for establishing GAAP for state and local governments through its procurements (Statement and Interpretations).

The basis of accounting determines when transactions are recorded in the financial records and reported in the financial statements. Government-wide financial statements (Exhibits A and B) are prepared using the accrual basis of accounting in conformity with generally accepted accounting principles in the United States of America (GAAP) established by the Governmental Accounting Standards Board (GASB). Governmental funds (Exhibits C, E, and G) use the modified accrual basis of accounting. Proprietary funds (Exhibit H, I and J) and Fiduciary funds (Exhibits K and L) use the accrual basis of accounting.

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. All governmental fund types are accounted for using a flow of current financial resources measurement focus. The financial statements for governmental funds are a balance sheet, which generally includes only current assets and current liabilities, and a statement of revenues, expenditures and changes in fund balances, which reports on the sources (revenues and other financing sources) and uses (expenditures and other financing uses) of current financial resources. Fiduciary funds are reported using the economic resources measurement focus.

Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on an accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the Township, available means expected to be received within sixty days of fiscal year-end.

Revenue resulting from non-exchange transactions, in which the Township receives value without directly giving equal value in return, includes property taxes, grants and contributions. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenues from grants and contributions are recognized in the fiscal year in which all eligibility requirements have been satisfied. On a modified accrual basis, revenue from non-exchange transactions must also be 'available' before it can be recognized.

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

**BASIS OF ACCOUNTING AND MEASUREMENT FOCUS (Continued)**

The management of the Township of Hopewell has determined that the revenues most susceptible to accrual at December 31, 2022 are 1) real estate taxes collected within 60 days of Township's calendar year-end, 2) delinquent real estate taxes for the month of December, 3) certain Act 511 taxes, 4) cable franchise fees for the fourth quarter of 2022 and 5) other miscellaneous items of income pertaining to the 2022 calendar year received subsequent to December 31, 2022. On the governmental fund financial statements, receivables that will not be collected within the 'available' period have been reported as 'deferred inflows of resources.

On the accrual basis of accounting, expenses are recognized at the time they are incurred. The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. The primary expenditures deemed susceptible to accrual on December 31, 2022, are those for which the Board of Commissioner's intention was to expense these items as budgeted for in the 2022 official budget, and for which the Township has incurred an obligation during 2022 but has not paid as of December 31, 2022.

Allocations of cost, such as depreciation, are not recognized in governmental funds but are included as part of expenses in the government-wide statement of activities.

Program revenues include charges paid by the recipient of the goods or services offered by the program, and grants, subsidies and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues which are not classified as program revenues are presented as general revenues of the Township. The comparison of direct expenses with program revenues identifies the extent to which the government function is self-financing or draws from the general revenues of the Township.

**FUND ACCOUNTING**

Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain Township functions or activities. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. Funds are classified into three categories: Governmental, proprietary, and fiduciary. Fund categories are defined as follows:

**Governmental Funds** – Governmental funds focus on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and liabilities is reported as fund balance. The following are the Township's major and non-major governmental funds:

**MAJOR GOVERNMENTAL FUNDS:**

**GENERAL FUND** - Established under 'The First-Class Township Code' of the Commonwealth of Pennsylvania and is used for the general operations of the Township. Income in this fund is derived mainly from assessed revenue such as real estate taxes, local taxes established under Act 511 and other miscellaneous revenues not designated for other restricted fund purposes. These revenues are used for general ongoing government services such as public safety, public works, general administration of the Township and other miscellaneous operating expenses.

**TOWNSHIP OF HOPEWELL**  
**NOTES TO FINANCIAL STATEMENTS**

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

**FUND ACCOUNTING**

**MAJOR GOVERNMENTAL FUNDS:**

**CAPITAL PROJECT FUND** - Established to account for transfers from the General Fund and Sewer Fund to be used for the construction and improvement of the Township's parks, sewer system and other Township areas.

**HIGHWAY AID FUND** (SPECIAL REVENUE) - Established and restricted under Act 655 of the Commonwealth of Pennsylvania. Funding is received from the Commonwealth and is restricted in use for the maintenance, repair and construction of roads, streets and bridges for which the Township is responsible.

**Proprietary Funds** - used to account for activities similar to those found in the private sector, where the determination of net income is necessary and useful to sound financial administration. Goods or services from such activities can be provided either to outside parties (enterprise funds) or to other departments or agencies within the Township (internal service funds). The Township operates a Sewer Fund.

**Fiduciary Funds** – Fiduciary fund reporting focuses on net position and changes in net position. The fiduciary fund category is split into four classifications: pension trust funds, investment trust funds, private-purpose trust funds and agency funds. Trust funds are used to account for assets held by the Township under a trust agreement for individuals, private organizations, or other governments and are therefore not available to support the Township's own programs. Agency funds are custodial in nature and do not involve measuring income or any other results from operations. The Township has one pension trust fund (police pension).

**BUDGETS**

In December of 2021, the Township of Hopewell adopted its 2022 annual budget for its General Fund totaling \$6,061,381 in accordance with the provisions of the Commonwealth of Pennsylvania Township Code. The Township also adopted a budget for the capital project funds in the amount of \$126,250. The budgets are prepared utilizing the modified accrual method of accounting in accordance with generally accepted accounting principles. The original and final budgetary amounts are reflected in these financial statements (Exhibit G and Schedule 5). All annual appropriations of the general fund lapse at year-end.

The Township uses the following procedures in establishing this budgetary data:

- a. In accordance with the Township Code, beginning at least 30 days prior to the adoption of the budget, which shall not be later than December 31, a proposed budget for the ensuing year shall be prepared. The proposed budget shall be kept on file with the Township and made available for public inspection for a period of twenty days. Notice that the proposed budget is available for inspection is published in a newspaper of general circulation. After expiration of the twenty days, the Commissioners makes such revisions in the budget as deemed advisable and shall adopt the budget by motion.
- b. Transfers of budget amounts are authorized between departments within any fund after the third month of the year. However, any revisions that alter the total appropriations of any fund must be approved by the Commissioners.

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

**CASH AND CASH EQUIVALENTS**

For the purposes of these basic financial statements, cash and cash equivalents include amounts in demand deposit accounts and all highly liquid short-term investments with original maturity terms of less than three months.

**INVESTMENTS**

Provisions of Section 1705.1 of the First-Class Township Code authorize the following investments:

- I. Obligations of (a) the United States of America or any of its agencies or instrumentalities backed by the full faith and credit of the United States of America, (b) the Commonwealth of Pennsylvania or any of its agencies or instrumentalities backed by the full faith and credit of the Commonwealth of Pennsylvania, or (c) of any political subdivision of the Commonwealth of Pennsylvania or any of its agencies or instrumentalities backed by the full faith and credit of the political subdivision.
- II. Deposits in savings accounts, time deposits and share accounts of institutions insured by the Federal Deposit Insurance Corporation (FDIC) to the extent that such accounts are so insured and, for any amounts above the insured maximum, provided that approved collateral, as provided by law, is pledged by the depository.
- III. U.S. government obligations, short-term commercial paper issued by a public corporation, and banker's acceptances.

Governmental fund type investments include funds pooled for investment purposes with the Pennsylvania Local Government Investment Trust (PLGIT). PLGIT funds are stated at amortized cost, which approximates market value. The Township's portfolio is in compliance with these statutes on December 31, 2022. Fiduciary fund type investments include funds invested with Wells Fargo and PMRS, the Township's designated asset managers for the police and non-uniform pension plans.

**RECEIVABLES**

Receivables are reflected at net realizable value as of December 31, 2022.

**INVENTORIES**

The inventories of the Township were not material to the financial statements taken as a whole as of December 31, 2022. Therefore, they are not reported.

**SHORT-TERM INTERFUND RECEIVABLES/PAYABLES**

During the course of operations, numerous transactions occur between individual funds for goods provided or services rendered. These receivables and payables, if any, are classified as 'due from/to other funds' on the balance sheet. For the purposes of the government-wide statement of net position, governmental inter-fund receivables and payables have been eliminated.

**TOWNSHIP OF HOPEWELL**  
**NOTES TO FINANCIAL STATEMENTS**  
**DECEMBER 31, 2022**

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

**CAPITAL ASSETS AND DEPRECIATION**

General capital assets are those assets not specifically related to activities reported in proprietary funds. These assets are reported as part of governmental activities on the government-wide statement of net position. All capital assets are recorded at cost (or estimated historical cost). Donated fixed assets are recorded at fair value at the time of receipt. The Township maintains a capitalization dollar threshold of 1) \$10,000 or more for machinery and equipment, 2) \$15,000 or more for buildings and improvements, 3) \$15,000 or more for infrastructure and land improvements, and 4) land at any amount are reported at historical cost or estimated historical cost. In addition, capital assets purchased with long-term debt may be capitalized regardless of the thresholds established. Routine repair and maintenance costs that do not add to the value of the asset or extend its useful life are charged as an expense in the government-wide statement of activities. Management has elected to include certain homogeneous asset categories with individual assets less than \$10,000 as composite groups for financial reporting purposes.

Donated capital assets are recorded at estimated fair market value at the date of donation. In accordance with GASB Statement No. 34, infrastructure has been prospectively capitalized, beginning January 1, 2004. The Township did not elect retroactive reporting of infrastructure in the year of adoption of GASB Statement No. 34.

All reported capital assets, except land, are depreciated using the straight-line method over the following useful lives:

| <b><u>CATEGORY</u></b>            | <b><u>YEARS</u></b> |
|-----------------------------------|---------------------|
| Buildings and Improvements        | 10-40               |
| Furniture, Vehicles and Equipment | 3-15                |
| Infrastructure                    | 20-50               |

The accounting and reporting treatment applied to the capital assets associated with a fund are determined by its measurement focus. Capital assets purchased by governmental funds are recorded as expenditures in the fund financial statements (Exhibit E). The results of capitalizing fixed assets net of depreciation on the government-wide statement of net position and statement of activities, as opposed to recording these same assets as an expenditure in the fund financial statements (Exhibit E), is reflected in the required reconciliations of fund balance to net position (Exhibit D) and the changes in fund balances to the changes in net position (Exhibit F).

**ACCRUED LIABILITIES AND LONG-TERM OBLIGATIONS**

All payables accrued liabilities and long-term obligations are reported in the government-wide financial statements. In general, payables and accrued liabilities that will be paid from governmental funds are reported on the governmental fund financial statements regardless of whether they will be liquidated with current resources. However, the non-current portion of long-term liabilities that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they will be paid with current, expendable, available financial resources. In general, liabilities that mature or come due for payment within 60 days of the end of the fiscal year-end, are considered to be paid with current available financial resources.

Capital leases and other long-term obligations, if any, that will be paid from governmental funds are not recognized as a liability in the fund financial statements when due. The Township's General Fund is typically used to liquidate long-term liability obligations.

**TOWNSHIP OF HOPEWELL**  
**NOTES TO FINANCIAL STATEMENTS**  
**DECEMBER 31, 2022**

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

**ACCRUED LIABILITIES AND LONG-TERM OBLIGATIONS (Continued)**

The results of recognizing these long-term obligations as liabilities on the government-wide statement of net position and statement of activities, as opposed to recording these same obligations as an expenditure in the fund financial statements (Exhibit E) only when paid, is reflected in the required reconciliations of fund balance to net position (Exhibit D) and the changes in fund balances to the changes in net position (Exhibit F).

**LONG-TERM DEBT FINANCING COSTS**

Bond and note issuance costs are recorded as expenditures in the governmental fund financial statements in the year paid. The Township did not incur bond or note issuance costs during the 2022 fiscal year.

**OPERATING REVENUES AND EXPENSES**

Operating revenues are those revenues that are generated directly from the primary activity of the proprietary fund. For the Township of Hopewell, these revenues are water, sewer, trash and recycling usage charges, parking revenue, industrial park leases, and other miscellaneous revenues directly related to the operations of the Township. Operating expenses are the necessary costs incurred to operate the water, sewer, trash, recycling, parking, and industrial park activities. Non-operating revenues of the Township Sewer Fund consist of investment earnings and sale of fixed assets. Non-operating expenses consist of interest expenses on debt obligations.

**UNEARNED REVENUE**

Unearned revenue arises when the Township receives resources before it has legal claim to them. This occurs when grant monies are received prior to the incurrence of qualifying expenditures. In subsequent periods, when both revenue recognition criteria are met, or when the Township has a legal claim to the resources, the unearned revenue liability is removed, and revenue is recognized.

**DEFERRED OUTFLOWS AND INFLOWS OF RESOURCES**

In addition to assets and liabilities, the statement of net position will sometimes report a separate section for deferred outflows and/or inflows of resources. These separate financial statement elements represent a decrease and/or increase in net position that applies to a future period and will not be recognized as an outflow and/or inflow of resources (expense/expenditure or income/revenue) in the current period.

**PENSIONS**

For the purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position, and additions to/deductions from the pension plan's (the plan) fiduciary net position have been determined on the same basis as they are reported by the plans. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investment assets are reported at fair value. More information on pension activity is included in Note 9.

**TOWNSHIP OF HOPEWELL**  
**NOTES TO FINANCIAL STATEMENTS**

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

**NET POSITION**

Net position is classified into four categories according to external donor or legal restrictions or availability of assets to satisfy Township obligations. Net position is classified as follows:

- Net Investment in Capital Assets – This component of net position consists of capital assets net of accumulated depreciation and reduced by the outstanding balances of debt that is attributable to the acquisition, construction and improvement of the capital assets, plus deferred outflows of resources less deferred inflows of resources related to those assets.
- Restricted Net Position – This component of net position consists of restricted assets reduced by liabilities and deferred inflows related to those assets. Restricted net position includes Act 655 funding from the Commonwealth of Pennsylvania restricted in use for the maintenance, repair and construction of roads, streets and bridges in the Township, grant revenues restricted for use and monies restricted for debt service.
- Unrestricted – Consists of net position that does not meet the definition of ‘restricted’ or ‘net investment in capital assets.’

When an expense is incurred that can be paid using either restricted or unrestricted resources (net position), the Township’s policy is to first apply the expense toward restricted resources and then toward unrestricted resources.

**FUND BALANCE**

In the Balance Sheet – Governmental Funds (Exhibit C), fund balances are reported in specific categories to make the nature and extent of the constraints placed on any entity’s fund balance more transparent in accordance with GASB No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*. The following classifications describe the relative strength of the spending constraints placed on the purposes for which resources can be used:

- Non-spendable fund balance – amounts that are not in spendable form (such as prepaid expenses) or are required to be maintained intact. The Township’s non-spendable fund balance of \$90,323 represents prepaid expenses for calendar year 2022.
- Restricted fund balance – amounts constrained to specific purposes by their providers (such as grantors, bondholders, and high levels of government), through constitutional provisions, or by enabling legislation. Restricted fund balance includes Act 655 funding from the Commonwealth of Pennsylvania restricted in use for the maintenance, repair and construction of roads, streets and bridges in the Township and monies restricted for debt service purposes.
- Committed fund balance – amount constrained to specific purposes by the Township itself, using its highest level of decision-making Township; to be reported as committed, amounts cannot be used for any other purpose unless the government takes the same highest-level action to remove or change the constraint.
- Assigned fund balance – amounts the Township intends to use for a specific purpose; intent can be expressed by the governing body or by an official or body to which the governing body delegates the Township. The Township’s assigned fund balance of \$1,785,907 represents the fund balance of the Capital Project Fund.

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

**FUND BALANCE (Continued)**

- Unassigned fund balance – amount that is available for any purpose.

The Township establishes (and modifies or rescinds) fund balance commitments by passage of an ordinance or resolution. This is typically done through adoption and amendment of the budget. A fund balance commitment is further indicated in the budget document as a designation or commitment of the fund. The Township Manager has the Township to assign fund balance.

When expenditures/expenses are incurred for purposes for which unrestricted (committed, assigned, and unassigned) resources are available, and amounts in any of these unrestricted classifications could be used, it is the Township's general policy to spend the committed resources first, followed by assigned amounts and then unassigned amounts.

**ESTIMATES**

The preparation of financial statements in conformity with generally accepted accounting principles requires the Township's management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

**ADOPTION OF GASB PRONOUNCEMENTS**

The requirements of the following GASB Statements were adopted for the Township's 2022 financial statements. Except where noted, the adoption of these pronouncements did not have a significant impact on the Township's financial statements.

**GASB issued Statement No. 87, 'Leases'.** The primary objective of this Statement is to better meet the information needs of financial statement users by improving accounting and financial reporting for leases; enhancing the comparability of financial statements between governments; and also enhancing the relevance, reliability (representational faithfulness), and consistency of information about the leasing activities of governments.

**GASB issued Statement No. 91, 'Conduit Debt Obligations'.** The primary objectives of this Statement are to provide a single method of reporting conduit debt obligations by issuers and eliminate diversity in practice associated with (1) commitments extended by issuers, (2) arrangements associated with conduit debt obligations, and (3) related note disclosures.

**GASB issued Statement No. 97, 'Certain Component Unit Criteria and Accounting and Financial Reporting for Internal Revenue Code Section 457 Deferred Compensation Plans'.** The primary objectives of this Statement are to 1) increase consistency and comparability related to the reporting of fiduciary component units in circumstances in which a potential component unit does not have a governing board and the primary government performs the duties that a governing board typically would perform; 2) mitigate costs associated with the reporting of certain defined contribution pension plans, defined contribution other postemployment benefit (OPEB) plans, and employee benefit plans other than pension plans or OPEB plans as fiduciary component units in fiduciary fund financial statements; and 3) enhance the relevance, consistency, and comparability of the accounting and financial reporting for Internal Revenue Code (IRC) Section 457 deferred compensations plans (Section 457 plans) that meet the definition of a pension plan and for benefits provided through those plans.

**PENDING GASB PRONOUNCEMENTS**

**GASB issued Statement No. 94**, *'Public-Private and Public-Public Partnerships and Availability Payment Arrangements'*. The primary objectives of this Statement are to improve financial reporting by addressing issues related to public-private and public-public partnership arrangements (PPPs) and provide guidance for accounting and financial reporting for availability payment arrangements (APAs). The provisions of this Statement are effective for the Township's December 31, 2023, financial statements.

**GASB issued Statement No. 96**, *'Subscription-Based Information Technology Arrangements'*. The primary objective of this Statement is to provide guidance on the accounting and financial reporting for subscription-based information technology arrangements (SBITAs) for government end users. The provisions of this Statement are effective for the Township's December 31, 2023, financial statements.

**GASB issued Statement No 99**, *'Omnibus 2022'*. The primary objectives of this Statement are to enhance comparability in accounting and financial reporting and to improve the consistency of authoritative literature by addressing (1) practice issues that have been identified during implementation and application of certain GASB Statements and (2) accounting and financial reporting for financial guarantees. The practice issues addressed by this Statement are as follows:

- Classification and reporting of derivative instruments within the scope of Statement No. 53, *Accounting and Financial Reporting for Derivative Instruments*, that do not meet the definition of either an investment derivative instrument or a hedging derivative instrument.
- Clarification of provisions in Statement No. 87, *Leases*, as amended, related to the determination of the lease term, classification of a lease as a short-term lease, recognition and measurement of a lease liability and a lease asset, and identification of lease incentives.
- Clarification of provisions in Statement No. 94, *Public-Private and Public-Public Partnerships and Availability Payment Arrangements*, related to (a) the determination of the public-private and public-public partnership (PPP) term and (b) recognition and measurement of installment payments and the transfer of the underlying PPP asset.
- Clarification of provisions in Statement No. 96, *Subscription-Based Information Technology Arrangements*, related to the subscription-based information technology arrangement (SBITA) term, classification of a SBITA as a short-term SBITA, and recognition and measurement of a subscription liability.
- Extension of the period during which the London Interbank Offered Rate (LIBOR) is considered an appropriate benchmark interest rate for the qualitative evaluation of the effectiveness of an interest rate swap that hedges the interest rate risk of taxable debt.
- Disclosures related to nonmonetary transactions.
- Pledges of future revenues when resources are not received by the pledging government.
- Clarification of provisions in Statement No. 34, *Basic Financial Statements—and Management's Discussion and Analysis—for State and Local Governments*, as amended, related to the focus of the government-wide financial statements.

**PENDING GASB PRONOUNCEMENTS (Continued)**

**GASB issued Statement No 99 (Continued)**

- Terminology updates related to certain provisions of Statement No. 63, Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position
- Terminology used in Statement 53 to refer to resource flows statements.

The requirements related to extension of the use of LIBOR, accounting for SNAP distributions, disclosures of nonmonetary transactions, pledges of future revenues by pledging governments, clarification of certain provisions in Statement 34, as amended, and terminology updates related to Statement 53 and Statement 63 are effective upon issuance.

The requirements related to leases, PPPs, and SBITAs are effective for the Township's December 31, 2023, financial statements.

The requirements related to financial guarantees and the classification and reporting of derivative instruments within the scope of Statement 53 are effective for the Township's December 31, 2024, financial statements.

**GASB issued Statement No 100, 'Accounting Changes and Error Correction'.** The primary objective of this Statement is to enhance accounting and financial reporting requirements for accounting changes and error corrections to provide more understandable, reliable, relevant, consistent, and comparable information for making decisions or assessing accountability. The provisions of this Statement are effective for the Township's December 31, 2024, financial statements.

**GASB issued Statement No 101, 'Compensated Absences'.** The primary objective of this Statement is to better meet the information needs of financial statement users by updating the recognition and measurement guidance for compensated absences. That objective is achieved by aligning the recognition and measurement guidance under a unified model and by amending certain previously required disclosures. The provisions of this Statement are effective for the Township's December 31, 2024, financial statements.

The effects of implementing these Statements on the Township's financial statements have not yet been determined.

**NOTE 2 - CASH DEPOSITS AND INVESTMENTS**

**CASH DEPOSITS:**

At December 31, 2022, the Township of Hopewell had the following carrying values on its cash and cash equivalent accounts:

|                       | <b><u>Bank Balance</u></b> | <b><u>(Memo Only)<br/>Book Balance</u></b> |
|-----------------------|----------------------------|--------------------------------------------|
| General Fund          | \$ 4,111,577               | \$ 4,115,709                               |
| Special Revenue Funds | 1,544,227                  | 1,831,531                                  |
| Proprietary Fund      | 1,752,284                  | 1,734,503                                  |
|                       | <b><u>\$ 7,408,088</u></b> | <b><u>\$ 7,681,743</u></b>                 |

The difference between the bank balance and the carrying value represents year-end reconciling items such as deposits in transit and outstanding checks. The Federal Deposit Insurance Corporation (FDIC) coverage threshold for government accounts is \$250,000 per official custodian. This coverage includes checking and savings accounts, money market deposits accounts, and certificates of deposit.

**Custodial Credit Risk:**

Custodial credit risk is the risk that in the event of a bank failure, the Township's deposits over the FDIC insurance limit may not be returned to it. The Township does not have a policy for custodial credit risk. As of December 31, 2022, \$7,158,088 of the Township's deposits were exposed to custodial credit risk as this amount represents uninsured deposits collateralized with securities held by the pledging financial institution or by its trust department or agent, but not in the Township's name. In accordance with Act Number 72-1971 Session of the Commonwealth of Pennsylvania, deposits of the Township, in excess of \$250,000, are collateralized by securities pledged to a pooled public funds account with the Federal Reserve System.

The fair value and maturity term of the Township's investments as of December 31, 2022, are as follows:

|                                   | <b><u>No Stated Maturity</u></b> | <b><u>Less than 1<br/>Year</u></b> | <b><u>1-5 Years</u></b>    | <b><u>6-10 Years</u></b> | <b><u>Over 10 Years</u></b> | <b><u>Credit<br/>Rating</u></b> |

**TOWNSHIP OF HOPEWELL**  
**NOTES TO FINANCIAL STATEMENTS**  
**DECEMBER 31, 2022**

**NOTE 2 - CASH DEPOSITS AND INVESTMENTS (CONTINUED)**

**Custodial Credit Risk (Continued):**

The purpose of the Pennsylvania Local Government Investment Trust (PLGIT) is to enable governmental units to pool their available funds for investments authorized under the Intergovernmental Cooperation Act of 1972. The funds operate in a manner consistent with the SEC's Rule 2(a)7 of the Investment Company Act of 1940. The Township's position in the external investment pool is the same as the value of the pool shares and is reported at an amortized cost which approximates fair value. PLGIT activities are invested directly in a portfolio of securities, which are held by a third-party custodian. The Township can withdraw funds from the external investment pool without limitation or fees upon adequate notice. Copies of the PLGIT annual report can be obtained by contacting their website of [www.plgit.com](http://www.plgit.com).

For an investment, custodial credit risk is the risk that the counterparty to an investment transaction will fail and the Township will not recover the value of the investment or collateral securities that are in possession of an outside party. The Township does not have a formal investment policy for custodial credit risk.

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The Township has no formal investment policy, in addition to the requirements of the Township Code and the Intergovernmental Cooperation Act, that limits its investment choices based on credit ratings by nationally recognized rating organizations. The Township does not have a policy that would limit its investment choices to those with certain credit ratings.

**Interest Rate Risk:**

The Township does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

**Concentration of Credit Risk:**

The Township places no limit on the amount it may invest in any one issuer.

At December 31, 2022, the following are fiduciary fund investments (other than U.S. Governmental and U.S. Government guaranteed obligations), that represent five percent or more of the net position available for benefits:

|                                  | <b><u>Police Pension<br/>Plan</u></b> |
|----------------------------------|---------------------------------------|
| iShares Core S & P Small-Cap ETF | \$ 598,125                            |
| iShares Core S & P Mid-Cap ETF   | 631,575                               |
|                                  | <b><u>\$ 1,229,700</u></b>            |

**Fair Value Measurements:**

The Township of Hopewell's investments are reported at fair value within the fair value hierarchy established by generally accepted accounting principles. GASB Statement No. 72, *Fair Value Measurement and Application*, provides a framework for measuring fair value which establishes a three-level fair value hierarchy that prioritizes the inputs to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable (level 3 measurements). The three levels of the fair value hierarchy are described below:

**TOWNSHIP OF HOPEWELL**  
**NOTES TO FINANCIAL STATEMENTS**  
**DECEMBER 31, 2022**

**NOTE 2 - CASH DEPOSITS AND INVESTMENTS (Continued)**

**Fair Market Values: (Continued)**

**Level 1** – Observable inputs that reflect quoted prices for identical assets or liabilities in active markets such as stock quotes

**Level 2** – Includes inputs other than level 1 inputs that are directly or indirectly observable in the marketplace such as yield curves or other market data

**Level 3** – Unobservable inputs which reflect the reporting entity's assessment of the assumptions that market participants would use in pricing the asset or liability including assumptions about risk such as bid/ask spreads and liquidity discounts.

The following schedule presents the Investments of the Township by level within the fair value hierarchy:

|                                   | <b>Value<br/>at 12/31/22</b> | <b>Fair Value Measurements</b> |                            |                    |

Investments held in external investment pools such as PLGIT are not subject to the provisions of fair value measurements as they are recorded at amortized cost.

**NOTE 3 - PROPERTY TAXES**

The Township of Hopewell levies property taxes on March 1 of each calendar year. The calendar dates for payment of these taxes are as follows:

**PAYMENT PERIOD**

|                          |                   |
|--------------------------|-------------------|
| March 1 – April 30, 2022 | (Discount period) |
| May 1 – June 30, 2022    | (Face period)     |
| July 1 and after         | (Penalty period)  |

Taxpayers are entitled to a 2% discount if taxes are paid prior to April 30th. Collections after July 1st are assessed a 10% penalty. Unpaid taxes are sent to the Township's Delinquent Real Estate Tax Collector for collection or subsequent lien with Beaver County. Unpaid taxes as of December 31, 2022, totaling \$148,688 represent 5.2% of the original assessment for 2022 of \$2,857,000. The tax millage assessment for the 2022 calendar year is 16 mills on the assessed value of land and buildings, which represents \$16.00 of revenue for every \$1,000 of assessed value. Taxes receivable as shown in the government-wide statement of net position include prior year property taxes of \$314,515.

For purposes of the governmental fund financial statements, the above property taxes receivable, although measurable, do not meet the available criteria to finance current fiscal year operations. Accordingly, this amount (\$314,515) is equally offset as a credit to deferred inflows of resources in the fund financial statements.

**TOWNSHIP OF HOPEWELL**  
**NOTES TO FINANCIAL STATEMENTS**  
**DECEMBER 31, 2022**

**NOTE 3 - PROPERTY TAXES (Continued)**

The effect of recognizing property tax revenue when taxes are levied, as opposed to when they are received using the 'measurable and available' criteria under the modified accrual basis of accounting, is reflected in the required reconciliations of fund balance to net position (Exhibit D) and the changes in fund balances to the changes in net position (Exhibit F).

Taxes receivables are comprised of the following at December 31, 2022:

|                     |                          |
|---------------------|--------------------------|
| Property Taxes, Net | \$ 315,515               |

**DIRECT BORROWINGS - CAPITAL LEASE OBLIGATIONS**

In May of 2019 the Township entered into a lease agreement with KS State Bank in the amount of \$79,323 for the purchase of dump trucks for the Sewer Department. The lease calls for five (5) annual principal and interest payments of \$50,936 beginning May of 2019. The interest rate is 4% and the lease obligation is scheduled to mature in May of 2023.

**DEFAULT PROVISIONS**

If any Event of Default occurs on the above leases, all commitments and obligations of Lessors, under the lease agreements, immediately will terminate (including any obligation to make further loan advances or disbursements), and at the option of the Lessor, all indebtedness immediately will become due and payable, all without notice of any kind to the Township. The leases also contain provisions that allow the Lessor the right to take possession of the leased equipment.

**NOTE 9 - TOWNSHIP PENSION PLANS**

**NON-UNIFORM PENSION PLAN**

**DESCRIPTION OF PLAN**

The Township of Hopewell pension plan is a single-employer defined benefit pension plan controlled by the provisions of Resolution No. 2002-03 adopted pursuant to Act 15 of 1974. The plan participates in the Pennsylvania Municipal Retirement System (PMRS), which is an agent multiple-employer public employee retirement system that acts as a common investment and administrative agent for participating municipal pension plans. PMRS issues a separate Comprehensive Annual Financial Report (CAFR). A copy of the CAFR can be obtained by contacting the PMRS accounting office or visiting their website at pmrs.state.pa.us.

**PLAN MEMBERSHIP**

Plan membership consisted of the following as of January 1, 2021:

|                                     |                  |

| Total                               | <u><u>49</u></u> |

**PLAN BENEFITS**

The plan provides retirement and death benefits to eligible plan members and their beneficiaries. Effective January 1, 2009, the plan allows for a normal retirement benefit at age 60 or older with at least 20 years of credited service. No early retirement benefits are available. Monthly pension benefits are detailed in plan documents. Participants are fully vested upon completion of three (3) years of service.

**PLAN CONTRIBUTION REQUIREMENTS**

Employer contributions are actuarially determined reflecting a payment equal to annual Normal Cost, the expected Administrative Expenses, and an amount necessary to amortize the remaining Unfunded Actuarial Liability as a level dollar amount over a closed period. This contribution is based upon the Minimum Municipal Obligation (MMO) as defined in Act 205. For the calendar year 2022, the Township contributed \$206,615 to the plan. This contribution to the pension plan, subsequent to the measurement date of the Township's net pension liability (NPL), is recognized as a component of 'deferred outflows of resources – pension' on the statement of net position. Employee contributions are currently not required.

**ACTUARIAL ASSUMPTIONS**

The Township's net pension liability (NPL) was measured as of December 31, 2021. The total pension liability (TPL) used to calculate the NPL was determined by an actuarial valuation as of January 1, 2021 that was rolled forward to the measurement date, with adjustments for any material changes that are effective on or before the applicable measurement date, such as plan or assumption changes. The actuarial assumptions for the TPL as of the measurement date are described below:

- **Actuarial Cost Method** – Entry Age Normal
- **Rates of Pre-Retirement Mortality** – Males: Pub-2010 General Employees male table; Females: Pub-2010 General Employees female table
- **Rates of Post-Retirement Mortality** – Males: RP2006 annuitant male table; Females: RP2006 annuitant female table
- **Disabled Life Mortality Rates**: Males: RP2006 disabled annuitant male table; Females: RP2006 disabled annuitant female table
- **Mortality Improvement** - Mortality Improvement Scale MP-2018.
- **Termination Rates Before Retirement**: Less than 25 active members – sliding scale 1 year 11% down to 10 plus years at 3.0%. More than 25 active members – sliding scale 1 year 12% down to 10 plus years at 3.5%.

**NON-UNIFORM PENSION PLAN (Continued)**

**PENSION LIABILITIES, PENSION EXPENSE, AND DEFERRED OUTFLOWS OF RESOURCES  
AND DEFERRED INFLOWS OF RESOURCES RELATED TO PENSIONS (Continued)**

The above does not reflect changes in benefits or assumptions after January 1, 2021. Because the beginning and end of year TPL are based upon the same actuarial valuation dates, there is not a difference between expected and actual experience reported this year. The beginning of year TPL is based on the January 1, 2021 actuarial valuation. The end of year TPL is based on the January 1, 2021 actuarial valuation with liabilities rolled forward to December 31, 2021 and reflecting the impact of plan changes if applicable.

According to Governmental Accounting Standards Board (GASB) Statements No. 67 and 68, PMRS is required to allocate/distribute all funds to the respective participating employers for financial reporting purposes, to determine the respective employer 'plan fiduciary net position.' PMRS has determined that net investment income or loss and administrative expenses will be allocated to the employer/municipality accounts pro-rata based on their beginning Fiduciary Net Position balance adjusted for cash flows throughout the year. The 'Additional administrative expenses' are the expenses in excess of the 'PMRS administrative expense' (i.e. \$20 per participant expense paid by each plan).

The 'PMRS investment income' is based upon the regular and excess interest used to credit accounts annually. The 'Market value investment income' reflects the investment income/loss during the year net of PMRS investment income and the income/loss due to the difference between expected and actual asset values, including the impact from allocation of assets in support of the underlying retiree liabilities.

The impact of investment gains or losses for expensing is recognized over a period of five years. The impact of experience gains or losses and assumption changes on the TPL are recognized in the pension expense over the average expected remaining service live of all active and inactive members of the Plan. There were no experience gains or losses between the beginning of the year and end of year liabilities because the liabilities are based on the same actuarial valuation dates. However, there were no assumption changes as of the Measurement Date.

The annual pension expense recognized can be calculated two different ways. First, it is the change in the amounts reported for the Employer's Statement of Net Position that relate to the plan and are not attributable to employer contributions. That is, the change in Net Pension Liability (NPL) plus the changes in deferred outflows and deferred inflows plus employer contributions.

Alternatively, annual pension expenses can be calculated by its individual components. Although not required by GASB, PMRS provides an example of this calculation at [pmrs.state.pa.us/yearendrptg](https://pmrs.state.pa.us/yearendrptg).

The PMRS System's long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimates of expected future nominal rates of return (net of investment expenses) are developed for each asset class. These returns are combined to produce the Systems' Long-Term Expected Real Rate of Return by calculating the weighted average return for each asset class using each respective target asset allocation percentage and multiplying by the expected future nominal rate of return, while also factoring in covariance across asset classes, then deducting expected inflation (2.5%). Best estimates of geometric real rates of return for each utilized asset class are included in the pension plan's target asset allocation as of December 31, 2021, and summarized in the table below labeled "System Nominal Net and Real Rates of Return by Asset Class."

Based on the aforementioned methodology, the Board established the System's Long-Term Expected Rate of Return at 7.42%.

In addition to determining the System's Long-Term Nominal Expected Rate of Return, the PMRS Board, under the laws of the Commonwealth of Pennsylvania (Act 15 of 1974), is obligated to develop and apply the Regular Interest Rate to each of the individual participating municipalities' actuarial asset accounts held by PMRS. The rationale for the difference between the System's Long-Term Expected Rate of Return and the individual participating municipalities' Regular Interest Rate is described in the following section "Discount Rate." As of December 31, 2021, this rate is equal to 5.25%.

The Board has determined the minimum acceptable confidence level for achieving the Regular Interest Rate to be 60%. The table below labeled "Confidence Levels for System Nominal and Real Rates of Return" identifies simulated portfolio returns at various confidence levels based on the most recent asset allocation study conducted by the Boards' investment consultant, Marquette Associates.

**DISCOUNT RATE**

While it is often common practice to establish an actuarial Discount Rate that is equal to the Long-Term Expected Rate of return, PMRS is required by law (Act 15 of 1974) to establish a Discount Rate equal to the Regular Interest Rate. The PMRS Board establishes the Regular Interest Rate on the basis of expected stable and consistent earnings on investments to be applied to the accounts of the individual participating municipalities and includes the accounts of plan participants, municipalities, and plan retirees each year. The Board considers the following five quantitative factors in establishing the Regular Interest Rate:

1. Retiree Plan liability as a percentage of total Plan liability,
2. Active Plan participant liability as a percentage of total Plan liability,
3. Smoothed Pension Benefit Guarantee Corporation (PBGC) annuity rates,
4. PMRS System Long-Term Expected Rate of Return, and
5. PMRS administrative expenses

The formula using these factors is as follows:

Regular Interest Rate/Discount Rate = (Retiree Liability Percentage x Smoothed PBGC Annuity Rates) + (Active Employee Liability Percentage x System Long-Term Expected Rate of Return) – (Investment Expenses as a percentage of assets)

The Board may then adjust the Regular Interest Rate/Discount Rate derived from the formula against a variety of qualitative factors such as the desire to minimize Regular Interest Rate/Discount Rate volatility, probability of achieving the Regular Interest Rate, varying levels of asset allocation and liquidity, trending annuity rates, total PMRS actuarial and market value funding ratios, feedback from existing PMRS municipalities, and recommendations from the System's investment and actuarial consultants. The Regular Interest Rate/Discount Rate adopted by the Board and used to measure the individual participating municipalities' total pension liability was 5.25% as of December 31, 2021.

The Regular Interest Rate/Discount Rate will likely result in a System Long-Term Expected Rate of Return. Should the System experience a prolonged period of investment returns in excess of the Regular Interest Rate/Discount Rate, the Board is authorized to allocate any applicable portion of any such excess in accordance with Board policies in the form of Excess Interest as provided for in the law.

The projection of cash flows for each underlying municipal plan, used to determine if any adjustment to the Regular Interest Rate/Discount Rate was required ("depletion testing"), used the following assumptions: 1) member contributions will be made at the current contribution rate, 2) participating plan sponsors contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate, and 3) the System's Long-Term Expected Rate of Return will be used in the depletion testing of projected cash flows. Based on those assumptions, the PMRS pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members.

**SENSITIVITY OF THE NET PENSION LIABILITY TO CHANGES IN THE DISCOUNT RATE**

Changes in the discount rate affect the measurement of the TPL. Lower discount rates produce a higher TPL and higher discount rates produce a lower TPL. Because the discount rate does not affect the measurement of assets, the percentage change in the NPL can be very significant for a relatively small change in the discount rate. The table below shows the sensitivity of the NPL to the discount rate with two additional measures, plus and minus one percent from the rate used for the disclosure.

**POLICE PENSION PLAN**

**DESCRIPTION OF PLAN**

The Hopewell Township Police Pension Plan is a single-employer defined benefit pension plan. The Plan was established September 12, 1955. The Plan was amended and restated effective January 1, 2007. The Plan is governed by the Board of Supervisors of Hopewell Township which may amend plan provisions, and which is responsible for the management of Plan assets. The Board of Supervisors has delegated the Township to manage certain Plan assets to Wells Fargo Bank. The plan is required to file Form PC-201C biennially with the Pennsylvania Department of the Auditor General's Municipal Pension Reporting Program (MPRP). The most recent filing was as of January 1, 2022.

Plan membership as of December 31, 2022, was comprised of:

|                                                                         |                  |

**CONTRIBUTIONS**

The employer follows the funding policy prescribed by Act 205 of 1984 (as amended), which requires that annual contributions be based upon the Minimum Municipal Obligation (MMO) using the plan's most recent biennial actuarial valuation. The MMO includes the normal cost, estimated administrative expenses and an amortization contribution of the unfunded actuarial accrued liability, less estimated member contributions, and a credit equal to 10% of the excess (if any) of the actuarial value of assets over the actuarial accrued liability. Employees are required to contribute 5.0 percent of the covered payroll to the Plan.

Administrative costs, which may include but are not limited to investment management fees and actuarial services, are charged to the Plan and funded through the MMO and/or plan earnings.

**DEPOSITS**

At December 31, 2022, the Plan held no deposits.

**INVESTMENTS**

The Plan is authorized to invest in legal investments permitted under the Pennsylvania Fiduciaries Investment Act. The Plan has no formally adopted investment policy.

*Credit Risk* for investments is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The credit ratings of the plan's investments (excluding obligations explicitly guaranteed by the U.S. government) are indicated as follows:

| <u>Investment Type</u>       | <u>Fair Value</u>          | <u>Credit Rating</u> |
|------------------------------|----------------------------|----------------------|
| Corporate Debt               | \$ 513,261                 | A                    |

|                                                                               |       |
|-------------------------------------------------------------------------------|-------|
| Plan fiduciary net position as a percentage of<br>The total pension liability | 86.1% |
|-------------------------------------------------------------------------------|-------|

The total pension liability was determined by an actuarial valuation as of January 1, 2021 and rolled forward to the reporting date using the following significant actuarial assumptions applied to all periods included in the measurement:

**Actuarial Assumptions:**

|                                       |                                                                                                                                                     |
|---------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------|
| Inflation:                            | 2.50%                                                                                                                                               |
| Salary increases:                     | 5.5% including inflation, plus an additional 20% in the final year of employment                                                                    |
| Mortality:                            | 2010 Public Plan – Public Safety mortality tables. Improvement rates based on the Long-Range Demographic Assumptions for 2020 SSA's Trustee Report. |
| Expected Long-Term<br>Rate of Return: | 7.00%, applied to all periods                                                                                                                       |

The long-term expected rate of return on pension plan investments was determined using a building-block method in which the best-estimate ranges of expected future real rates of return (expected returns, net of inflation and investment expenses not funded through the MMO) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic rates of return for each major asset class included in the target asset allocation as of December 31, 2022, are summarized as follows:

| <u>Asset Class</u>        | <u>Expected Real ROR</u> |
|---------------------------|--------------------------|
| Equities                  | 4.09% to 10.49%          |
| Fixed Income              | .44% to 4.96%            |
| Cash and Cash Equivalents | 0.07% to .53%            |

**DISCOUNT RATE**

The discount rate used to measure the total pension liability was 7%. The projection of cash flows used to determine the discount rate assumed that the plan will continue to be funded based on the Minimum Municipal Obligation as determined in accordance with Act 205. Based on that assumption, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payment to determine the total pension liability.

**SENSIVITY OF THE NET PENSION LIABILITY (ASSET) TO CHANGES IN THE DISCOUNT RATE**

Changes in the discount rate affect the measurement of the TPL. Lower discount rates produce a higher TPL and higher discount rates produce a lower TPL. Because the discount rate does not affect the measurement of assets, the percentage change in the NPL can be very significant for a relatively small change in the discount rate. The following shows the sensitivity of the NPL to the discount rate with two additional measures, plus and minus one percent from the rate used for the disclosure.

**NOTE 10 - COMPENSATED ABSENCES**

The Township reports compensated absences in accordance with the provisions of applicable GASB Statements. Sick leave benefits are accrued as a liability at various rates per day for all employees in accordance with the terms of the Township's collective bargaining agreements or administrative guidelines. The number of days that can be accrued varies based on their contract and their years of service.

As of December 31, 2022, the liability for accrued sick leave is \$460,498 for governmental fund employees and \$119,689 for proprietary fund employees. The entire compensated absences liability of \$580,187 is shown as a non-current liability in the government-wide statement of net position. For governmental fund financial statements, compensated absences are recorded as expenditures when paid rather than accrued when earned as the likelihood of payment in the immediate fiscal year with available expendable resources is not assured.

**NOTE 11 - OTHER POST-EMPLOYMENT BENEFITS**

The Township provides termination benefits to all employees who qualify to retire. All such employees receive life insurance coverage of \$5,000 or \$15,000, depending on employee category when they begin retirement. In addition, qualified police officers receive a one-time \$2,500 payout while non-uniform employees receive a payout based on their years of service and hourly rate at the time of retirement. The governmental activities liability for these future benefits (excluding the life insurance coverage) to be paid to the retirees is estimated to be \$31,242, while the business-type activities (Sewer Fund) liability is estimated to be \$15,467 at December 31, 2022. The entire compensated absences liability of \$46,709 is shown as a non-current liability in the government-wide statement of net position.

**NOTE 12 - RISK AND UNCERTAINTIES**

**TOWNSHIP OF HOPEWELL**  
**NOTES TO FINANCIAL STATEMENTS**  
**DECEMBER 31, 2022**

The Township is exposed to various risks of loss related to torts, errors and omissions, natural disasters, and loss or damage of assets. These risks are covered by commercial insurance purchased from independent third parties. Settled claims for these risks have not exceeded commercial insurance coverage for the recent years. There were no significant reductions in the level of insurance coverage compared to the coverage in the prior year.

**General Liability Risk Management**

The township participates as a member of the Pennsylvania Intergovernmental Risk Management Association (PIRMA) to address risks associated with comprehensive liability and property coverage. PIRMA differs from traditional insurance programs in the fact that PIRMA is owned by its members and serves only its members' interests. This governmental entity pool consists of approximately 600 members and provides claims handling for property and casualty claims, helps obtain stable costs for coverage specific to Pennsylvania governmental entities, and develops comprehensive, customized loss control services. The Township signed an intergovernmental contract where the funding requirement for each member of the pool is equal to the estimated cash outflow of the pool related to the Township on an annual basis.

There were no significant reductions in the level of insurance coverage compared to the coverage in the prior year.

Additional information regarding the pool can be found on PIRMA's website, [www.pirma.org](http://www.pirma.org). PIRMA has an annual audit done in accordance with GASB pronouncements as well as Financial Accounting Standards Board (FASB) pronouncements as applicable.

**Dental and Vision Risk Management**

For its dental and vision insurance, the Township participates as a member of the Municipal Employers Insurance Trust (MEIT). MEIT was formed in 1968 for the purpose of providing certain benefits for eligible employers (any municipality, municipality Township, association of municipal employees of any Township, town, or township of the Commonwealth of Pennsylvania) and those employers who may later become eligible. MEIT acts as an agent for the eligible employers by collecting the insurance premiums and remitting the premiums to the various insurance providers. The Township pays a monthly premium to MEIT for its medical, dental, and vision insurance.

The trust agreement provides that MEIT will be self-sustaining through employer contributions sufficient to pay all insurance premiums from commercial insurance carriers and all administrative costs of MEIT.

The Township may withdraw from MEIT by giving 30 days' notice. The trust was established solely for the purpose of administering, holding, and maintaining insurance policies and other agreements related to the provision of benefits. Therefore, the Township has no right, title, or interest in the Trust Fund, and it has no right to the return of any monies paid into the Trust Fund.

**NOTES TO FINANCIAL STATEMENTS**  
**DECEMBER 31, 2022**

**Health Risk Management**

For its health insurance, the Township participates as a member of the Teamsters No. 261 Employers Welfare Fund (Welfare Fund). The Welfare Fund was formed in 1950 for the purposes of providing certain benefits for eligible employers (who are parties to collective bargaining agreements with any union) and is an exempt organization under Internal Revenue Code Section 501(c)(9). The Welfare Fund acts as an agent for the eligible employers by collecting the insurance premiums and remitting the premiums to the various insurance providers. The Township pays premiums to the Welfare Fund for its medical insurance in accordance with collective bargaining agreements between the employers and Teamsters Local Union No. 261. The Insurance companies are paid to administer the plan.

The trust agreement provides that the Welfare Fund will be self-sustaining through employer and retiree contributions sufficient to pay all insurance premiums from commercial insurance carriers and all administrative costs of the Welfare Fund.

The Township may withdraw from the Welfare Fund by giving 30 days' notice. The trust was established solely for the purpose of administering, holding, and maintaining insurance policies and other agreements related to the provision of benefits. Therefore, the Township has no right, title, or interest in the Trust Fund, and it has no right to the return of any monies paid into the Trust Fund.

**Workers Compensation Risk Management**

For its workers' compensation insurance coverage, the Township participates in the Municipal Risk Management Workers' Compensation Pooled Trust, a public entity risk pool operated for the benefit of 202 cities, municipalities, townships, and municipal authorities. Trust underwriting and rate-setting policies are established after consultation with an independent actuary and certain approvals of the Pennsylvania Department of Labor and Industry as mandated by Act 44 of 1933 (Act 44). All Trust participants may be subject to a supplemental assessment/dividend based on the overall experience of the participants, pursuant to Act 44. Each participant of the Trust agrees to jointly and severally assume and discharge the liabilities arising under the Workers' Compensation Act and Occupational Disease Act of each and every participant in the Trust. Settled claims from these risks have not exceeded commercial insurance coverage for the past three years. The Trust purchases excess insurance coverage with statutory limits. The retention for this coverage is \$500,000 per occurrence. There were no significant changes in the levels of insurance coverage compared to the prior year. Political subdivisions joining the Trust must remain members for a minimum of four years. A member may withdraw from the Trust after that time by giving ninety days' notice, subject to approval by the Trust actuary under specified circumstances related to the continued fiscal stability of the pool. At the time of withdrawal, the participant is responsible for their share of assessments but has no claim on any assets of the Trust. Estimates of any additional assessments are unknown.

**LEGAL MATTERS**

The Township of Hopewell, in the normal course of operations, is party to various legal matters normally associated with municipalities such as real estate tax assessment appeals, personnel wage and benefits, and other miscellaneous legal matters. As of December 31, 2022, the Township is unaware of any pending litigation that would be material to the financial position of the Township of Hopewell.

**FEDERAL AND STATE FUNDING**

The Township of Hopewell's state and federally funded programs, including its pension funds, are subject to program compliance audits by various governmental agencies. The audit scopes of these program compliance audits are different than the scope of financial audits performed by an outside, independent certified public accounting firm. The Township is potentially liable for any expenditure disallowed by the results of these program compliance audits. Management is not aware of any material items of noncompliance which would result in the disallowance of program expenditures.

**NOTE 13 – PRIOR PERIOD ADJUSTMENT**

For the governmental funds, the prior period adjustment to the December 31, 2021 fund balance, as reflected on the Statement of Revenues, Expenditures and Changes in Fund Balance (Exhibit B), totaling \$658,631, represents the correction of an error in the prior period financial statements for the recognition of ARPA grant revenue.

For the governmental activities, the prior period adjustment to the December 31, 2021 net position as reflected on the Statement of Revenues, Expenditures and Changes in Net Position (Exhibit B), totaling \$775,287, represents PMRS pension information received after the issuance of the December 31, 2021 financial statements \$116,656 and the correction of an error in the prior period financial statements related to grant funding \$658,631.

For the business-type activities, the prior period adjustment to the December 31, 2021 net position as reflected on the Statement of Revenues, Expenditures and Changes in Net Position (Exhibit B), totaling \$163,722, represents PMRS pension information received after the issuance of the December 31, 2021 financial statements.

**NOTE 14 – SUBSEQUENT EVENTS**

Management has determined that there are no events subsequent to December 31, 2022, through the July 7, 2023, date of the 'Independent Auditor's Report', which is the date the financial statements were available to be issued, that require additional disclosure in the financial statements.

**SUPPLEMENTARY INFORMATION – POLICE PENSION PLAN**  
**DECEMBER 31, 2022**

**NOTE 1 - FACTORS AND TRENDS USED IN THE ACTUARIAL VALUATION FOR PENSION BENEFITS**

**Changes in Benefit Terms**

- Effective 1/1/2007: Service increment change to \$500 for more than 30 years of service. Those retiring with 26-30 years get \$100.
- Effective 1/1/2007: An In-Service Retirement Option Program (IROP) was added.
- Effective 1/1/2013: The Service Increment for the chief of police was increased to \$100 for every year completed in excess of 25, up to \$500 for 30 years of service.
- Effective on or after 12/22/20: new participants hired on or after 12/20/20 are only entitled to minimum benefits under Act 600.

**Changes to Assumptions**

- Effective 1/1/2007: Normal retirement assumption was changed from age 52 and 27 years of service, to age 50 and 25 years of service.
- Effective 1/1/2009: The basis for computing the actuarial value of assets was changed from 100% of market value to the four-year smoothing method.
