This informative seminar will focus on the many scams criminals are currently using to steal money from unsuspecting victims, often targeting seniors and vulnerable residents. Attendees will learn about real-life scams that have occurred both locally and across the country, how these schemes operate, and the warning signs that can help identify fraudulent activity before it is too late.

Topics will include common phone, text, email, online, and financial scams, as well as the tactics scammers use to create urgency, fear, and trust in order to gain access to your personal information and money. We will walk through the scam process from the initial contact to the final transaction and provide practical tips to help protect yourself and your loved ones.

Fraud can happen to anyone. The more informed you are, the less likely you are to become a victim.

Bring a friend, family member, neighbor, or caregiver.
SHARE THIS INFORMATION and help prevent others from becoming the next victim of fraud.
